THERMPRE - MODULE 27

=====

[ITEM: 27-1, THINTRO]
[MODULE: 27, Pre political figure and party thermometers]
[TYPE: Display only]
[QUESTION:
We would like to get your feelings toward some of our political
leaders and other people who are in the news these days. We will show the
name of a person and we'd like you to rate that person
using something we call the feeling thermometer.
Ratings between 50 degrees and 100 degrees mean that you feel
favorable and warm toward the person. Ratings between 0 degrees
and 50 degrees mean that you don't feel favorable toward the
person and that you don't care too much for that person. You
would rate the person at the 50 degree mark if you don't feel
particularly warm or cold toward the person.
If we come to a person whose name you don't recognize, you don't
need to rate that person. Just click "Next" and we'll move on to the
next one.

In the grids that follow, R should click on the chosen synonym to
make his/her choice.
The diamond character appearing in the display of the screens
following this should not be present.]
[QUESTION:
We would like to know something about how people go about
guessing words they do not know. We will list some words—you may
know some of them, and you may not know quite a few of them.

On each screen, the first word is in capital letters—like BEAST.

Then there are five other words:

BEAST	afraid	words	large	animal	separate
--------------	--------	-------	-------	--------	----------

Select the word that comes closest to the meaning of the word in
capital letters.
For example, if the word in capital letters is BEAST, you would select
'animal,' since that word comes closer to BEAST than any of the
other words.

These words are difficult for almost everyone—just give your best
guess if you are not sure of the answer.

SELECT ONE ANSWER FOR EACH QUESTION.

Please do NOT ask anyone for help or look up information to help
you answer these questions - we want to learn how people answer
on their own.

Thank you very much.]
