

Some people think we need much tougher government regulations on business in order to protect the environment. Suppose these people are at one end of a scale, at point 1.

Others think that current regulations to protect the environment are already too much of a burden on business. Suppose these people are at the other end, at point 7.

And, of course, some other people have opinions somewhere in between, at points 2,3,4,5, or 6.

Where would you place yourself on this scale, or haven't you thought much about this?
