ITEM LABEL: INTRO PRE-ELECTION POLITICAL FIGURE THERMOMETERS

Please look at page ^prepg_c of the booklet.
I'd like to get your feelings toward some of our political leaders and other people who are in the news these days. I'll read the name of a person and I'd like you to rate that person using something we call the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the person and that you don't care too much for that person. You would rate the person at the 50 degree mark if you don't feel particularly warm or cold toward the person. If we come to a person whose name you don't recognize, you don't need to rate that person. Just tell me and we'll move on to the next one.

WEB SPEC: Add 'Click Next to continue'.

Online, in this section, do not use the standard nonresponse prompt; just move on to the next question. Also, use the following question text: 'Please look at the graphic below.'

We would like to get your feelings toward some of our political leaders and other people who are in the news these days. We will show the name of a person and we'd like you to rate that person using something we call the feeling thermometer.

Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the person and that you don't care too much for that person. You would rate the person at the 50 degree mark if you don't feel particularly warm or cold toward the person.

If we come to a person whose name you don't recognize, you don't need to rate that person. Just click 'Next' and we'll move on to the next one.'

Also, display the feeling thermometer graphic onscreen on this intro screen and with each item in this section.

Please look at page ^prepg_k of the booklet.
Some people feel the government in Washington should see to it that every person has a job and a good standard of living. Suppose these people are at one end of a scale, at point 1. Others think the government should just let each person get ahead on their own. Suppose these people are at the other end, at point 7. And, of course, some other people have opinions somewhere in between, at points 2, 3, 4, 5, or 6.

ITEM LABEL: CASI: INTRO WORDSUM module

We would like to know something about how people go about guessing words they do not know. We will list some words—you may know some of them, and you may not know quite a few of them.

On each screen, the first word is in capital letters—like BEAST.

Then there are five other words:

/see wordsum_gridexample.gif/

Select the word that comes closest to the meaning of the word in capital letters.

For example, if the word in capital letters is BEAST, you would select 'animal,' since that word comes closer to BEAST than any of the other words.

These words are difficult for almost everyone—just give your best guess if you are not sure of the answer.

SELECT ONE ANSWER FOR EACH QUESTION.

Please do not ask anyone for help or look up information to help you answer these questions – we want to learn how people answer on their own.

Thank you very much.
