ACKNOWLEDGEMENT OF ASSISTANCE

int1960.txt

ALL MANUSCRIPTS UTILIZING DATA MADE AVAILABLE THROUGH THE CONSORTIUM SHOULD ACKNOWLEDGE THAT FACT AS WELL AS IDENTIFY THE ORIGINAL COLLECTOR OF THE DATA. THE ICPSR COUNCIL URGES ALL USERS OF THE ICPSR DATA FACILITIES TO FOLLOW SOME ADAPTATION OF THIS STATEMENT WITH THE PARENTHESES INDICATING ITEMS TO BE FILLED IN APPROPRIATELY OR DELETED BY THE INDIVIDUAL USER.

THE DATA (AND TABULATIONS) UTILIZED IN THIS (PUBLICATION) WERE MADE AVAILABLE (IN PART) BY THE INTER-UNIVERSITY CONSORTIUM FOR POLITICAL RESEARCH. THE DATA FOR THE SURVEY RESEARCH CENTER 1960 AMERICAN NATIONAL ELECTION STUDY WERE ORIGINALLY COLLECTED BY ANGUS CAMPBELL, PHILIP CONVERSE, WARREN MILLER, AND DONALD STOKES. NEITHER THE ORIGINAL COLLECTORS OF THE DATA NOR THE CONSORTIUM BEAR ANY RESPONSIBILITY FOR THE ANALYSES OR INTERPRETATIONS PRESENTED HERE.

IN ORDER TO PROVIDE FUNDING AGENCIES WITH ESSENTIAL INFORMATION ABOUT THE USE OF ARCHIVAL RESOURCES, AND TO FACILITATE THE EXCHANGE OF INFORMATION ABOUT ICPSR PARTICIPANTS' RESEARCH ACTIVITIES, EACH USER OF THE ICPSR FACILITIES IS EXPECTED TO SEND TWO COPIES OF EACH COMPLETED MANUSCRIPT OR THESIS ABSTRACT TO THE CONSORTIUM. PLEASE INDICATE IN THE COVER LETTER WHICH DATA WERE USED.

□>> 1960 STUDY DESCRIPTION

THE SURVEY RESEARCH CENTER 1960 AMERICAN NATIONAL ELECTION STUDY WAS DIRECTED BY ANGUS CAMPBELL, PHILIP CONVERSE, WARREN MILLER, AND DONALD STOKES. CONDUCTED IN SEPTEMBER THROUGH DECEMBER OF 1960, THE STUDY WAS DESIGNED TO PROVIDE INFORMATION ABOUT THE POLITICAL ATTITUDES AND BEHAVIOR OF A REPRESENTATIVE CROSS-SECTION OF UNITED STATES VOTERS. THE STUDY IS THE LAST WAVE OF A PANEL STUDY OF WHICH THE FIRST TWO COMPONENTS ARE THE 1956 AND 1958 AMERICAN NATIONAL ELECTION STUDIES.

int1960.txt

THE 1960 AMERICAN NATIONAL ELECTION STUDY IS ITSELF A PANEL STUDY IN WHICH RESPONDENTS WERE INTERVIEWED BOTH BEFORE AND AFTER THE 1960 ELECTION. IN THE PRE-ELECTION INTERVIEW THE INVESTIGATORS WERE CONCERNED WITH OBTAINING INFORMATION ABOUT THE LONG-TERM INFLUENCES UPON ELECTORAL CHOICE AND ABOUT THE ELECTION-SPECIFIC SHORT-TERM FORCES THAT WERE IN OPERATION IN 1960. IN THE POST-ELECTION INTERVIEW THE EMPHASIS WAS PLACED UPON ASCERTAINING BEHAVIOR WITH RESPECT TO THE ELECTION AND THE REASONS FOR THAT BEHAVIOR.

THE LONG-TERM INFLUENCES ON THE RESPONDENT'S ELECTORAL BEHAVIOR WHICH WERE EXPLORED IN THE PRE-ELECTION INTERVIEW INCLUDED A NUMBER OF FACTORS IMPORTANT IN POLITICAL SOCIALIZATION, SUCH AS THE RESPONDENT'S EDUCATION, OCCUPATION, FINANCIAL SITUATION, LIFE CYCLE STATUS, GEOGRAPHIC AND SOCIAL MOBILITY, AND MILITARY SERVICE. THE DIRECTION AND INTENSITY OF THE RESPONDENT'S PARTY IDENTIFICATION AND THE REASONS FOR ANY PAST CHANGES IN THIS IDENTIFICATION WERE ALSO THE SUBJECT OF QUESTIONS DESIGNED TO TAP THESE LONG-TERM INFLUENCES ON BEHAVIOR.

IN ORDER TO DETERMINE THE NATURE OF THE SHORT-TERM FORCES WHICH MIGHT INFLUENCE VOTING BEHAVIOR, RESPONDENTS IN THE PRE-ELECTION INTERVIEW WERE ASKED THEIR OPINIONS ON POLITICAL ISSUES WHICH WERE IMPORTANT IN 1960, SUCH AS CIVIL RIGHTS, DOMESTIC SPENDING FOR SOCIAL SERVICES, AND FOREIGN AID. QUESTIONS ABOUT AGRICULTURAL MATTERS AND LABOR CONCERNS WERE ASKED OF FARMERS AND LABOR UNION MEMBERS, RESPECTIVELY. THE RESPONDENT'S PERCEPTIONS AND EVALUATIONS OF THE PRESIDENTIAL AND VICE-PRESIDENTIAL CANDIDATES AND THE TWO MAJOR PARTIES WERE OBTAINED. IN ADDITION, QUESTIONS DESIGNED TO REVEAL CHANGES IN THE RESPONDENT'S ATTITUDES TOWARD THE CANDIDATES AND PARTIES WERE INCLUDED.

THE SURVEY INSTRUMENT CONTAINED A SERIES OF QUESTIONS USED TO MEASURE THE RESPONDENT'S SENSE OF POLITICAL EFFICACY AND CITIZEN DUTY. ALSO INCLUDED WAS A SERIES OF ITEMS DESIGNED TO MEASURE THE EXTENT TO WHICH THE RESPONDENT WOULD TRUST CERTAIN GROUPS TO ENDORSE AN ACCEPTABLE CANDIDATE FOR OFFICE. FINALLY, THE PRE-ELECTION INTERVIEW ASKED THE RESPONDENT TO PREDICT THE 1960 PRESIDENTIAL ELECTION OUTCOME, TO PREDICT HIS LIKELIHOOD OF VOTING, TO IDENTIFY THE CANDIDATE FOR WHOM HE WOULD VOTE, AND TO GIVE THE REASON FOR THAT ELECTORAL PREFERENCE.

THE POST-ELECTION INTERVIEW WAS PRIMARILY CONCERNED WITH THE RESPONDENT'S VOTE AND THE PARTY-, CANDIDATE-, AND ISSUE-ORIENTED REASONS FOR THAT VOTE. THE RESPONDENT'S INTEREST IN THE ELECTION AND HIS EXPOSURE TO MEDIA WERE EXPLORED. IN PARTICULAR, RESPONDENTS WERE ASKED QUESTIONS ABOUT THEIR PARTICIPATION IN POLITICAL ACTIVITIES, AND ABOUT THEIR REACTIONS TO THE TELEVISED KENNEDY-NIXON DEBATES. IN ORDER TO ASSESS THE EFFECT OF KENNEDY'S RELIGION ON ELECTORAL CHOICE, A SERIES OF QUESTIONS ABOUT THE RESPONDENT'S RELIGIOUS PREFERENCES AND BACKGROUND WERE INCLUDED, IN ADDITION TO QUESTIONS WHICH DIRECTLY ASKED THE RESPONDENT ABOUT RELIGION

int1960.txt

AS A FACTOR IN THE 1960 ELECTION. FINALLY, THE POST-ELECTION QUESTIONNAIRE INCLUDED A SERIES OF QUESTIONS DESIGNED TO MEASURE THE RESPONDENT'S SENSE OF PERSONAL COMPETENCE.

THE PRIMARY REPORT ON THE FINDINGS OF THE SURVEY RESEARCH CENTER 1960 AMERICAN NATIONAL ELECTION STUDY IS BY ANGUS CAMPBELL, PHILIP CONVERSE, WARREN MILLER, AND DONALD STOKES, "STABILITY AND CHANGE IN 1960: A REINSTATING ELECTION," AMERICAN POLITICAL SCIENCE REVIEW, JUNE 1961. FURTHER ARTICLES USING THE 1960 DATA ARE FOUND IN ANGUS CAMPBELL, ET AL., ELECTIONS AND THE POLITICAL ORDER (NEW YORK: JOHN WILEY & SONS, INC., 1966).

□

>> 1960 SAMPLING INFORMATION

THE INDIVIDUALS INTERVIEWED IN 1960 WERE A REPRESENTATIVE CROSS-SECTION OF PERSONS OF VOTING AGE LIVING IN PRIVATE HOUSEHOLDS IN THE UNITED STATES. COMPLICATIONS IN THE SAMPLING PROCEDURE WERE INTRODUCED BY THE FACT THAT THE 1960 STUDY WAS THE THIRD WAVE OF A PANEL STUDY. IN 1958 MANY OF THE 1956 RESPONDENTS HAD MOVED AND COULD NOT BE RE-INTERVIEWED AT THEIR ORIGINAL ADDRESSES. A NUMBER OF THESE RESPONDENTS WERE INTERVIEWED AT THE NEW ADDRESSES, BUT WERE INCLUDED ONLY IN THE PANEL STUDY, NOT IN THE CROSS-SECTION. (THIS IS BECAUSE A CROSS-SECTION SAMPLE IS A SAMPLE OF SELECTED INDIVIDUALS WITHIN SPECIFIC HOUSEHOLDS, NOT A SAMPLE OF INDIVIDUAL PERSONS ONLY.) TO COMPENSATE FOR THE LOSS OF THIS GROUP OF RESPONDENTS IN THE 1958 STUDY A NEW GROUP WAS SELECTED FROM THE CURRENT OCCUPANTS OF DWELLINGS FROM WHICH FORMER RESPONDENTS HAD MOVED. TO REDUCE FIELD COSTS, ONLY HALF AS MANY SUCH ADDITIONAL RESPONDENTS WERE ADDED AS WOULD HAVE BEEN SELECTED IF THEIR PROBABILITY OF SELECTION HAD BEEN IDENTICAL TO THAT OF THE RE-INTERVIEWED RESPONDENTS. TO ADJUST FOR THIS DIFFERENCE IN SAMPLING FRACTIONS, THE ADDITIONAL RESPONDENTS WERE GIVEN DOUBLE WEIGHT.

THE BASIC RATE OF SELECTION OF THOSE INTERVIEWED AT THEIR 1956 ADDRESSES IN BOTH 1956 AND 1958 WAS 1 IN 20,571. THE RATE OF SELECTION OF THOSE RESPONDENTS FIRST INTERVIEWED IN 1958 WAS HALF OF THAT. ACCORDINGLY THESE GROUPS ARE WEIGHTED "ONE" AND "TWO", RESPECTIVELY. IN 1960 A TOTAL OF 166 NEW RESPONDENTS WERE SELECTED FROM NEWLY CONSTRUCTED DWELLING UNITS AND FROM AN ASSORTMENT OF 1956 ADDRESSES. THESE GROUPS WERE SELECTED AT A RATE OF ONE-FOURTH THE BASIC RATE, AND THEREFORE ARE WEIGHTED "FOUR". FINALLY, TO MAINTAIN REPRESENTATIVENESS OF THE 1960 SAMPLE, ONE HUNDRED 1956 RESPONDENTS (INTERVIEWED BOTH IN 1958 AND 1960) WERE SELECTED TO REPRESENT 1956 RESPONDENTS LOST THROUGH PANEL ATTRITION. NINETY-FOUR OF THESE RESPONDENTS WERE WEIGHTED BY A FACTOR OF TWO AND THE REMAINING SIX WERE WEIGHTED BY A FACTOR OF THREE. THE UNWEIGHTED N OF THE 1960 STUDY IS 1181 AND THE WEIGHTED N IS 1954.

IN OTHER RESPECTS, HOWEVER, THE 1960 STUDY SHARES THE SAME SAMPLE DESIGN AS THAT OF THE 1956 AND 1958 STUDIES. THE SAMPLE WAS DRAWN AS FOLLOWS: THE TWELVE LARGEST METROPOLITAN AREAS OF THE UNITED STATES WERE DRAWN WITH CERTAINTY TO REPRESENT THEMSELVES. THE REST OF THE COUNTRY WAS FORMED INTO FIFTY-FOUR STRATA, FROM EACH OF WHICH A PRIMARY SAMPLING UNIT (CONSISTING OF A COUNTY OR GROUP OF COUNTIES) WAS DRAWN WITH PROBABILITY PROPORTIONAL TO SIZE. THE SELECTION PROCEDURE WITHIN THESE SIXTY-SIX PRIMARY SAMPLING UNITS ULTIMATELY YIELDED A SAMPLE OF PRIVATE HOUSEHOLDS. RESPONDENTS WERE SELECTED FROM THESE HOUSEHOLDS BY AN OBJECTIVE PROCEDURE OF SELECTION WHICH ALLOWED NO SUBSTITUTIONS.

□>> 1960 FILE STRUCTURE

THE DATA ARE AVAILABLE FROM ICPSR IN TWO FORMATS: A CARD IMAGE FILE AND AN OSIRIS DATASET. THE CARD IMAGE FILE CONTAINS 10 DECKS PER RESPONDENT IN A FORMAT BASED ON 80 COLUMN PUNCHED CARDS. THE DATA ARE SORTED BY INTERVIEW NUMBER WITH ALL DECKS FOR EACH CASE TOGETHER IN ASCENDING ORDER. THERE ARE TWO COMPONENTS TO THE OSIRIS DATASET. THE OSIRIS DICTIONARY GIVES THE FORMAT AND OTHER INFORMATION FOR EACH VARIABLE IN THE OSIRIS DATA FILE. THE DICTIONARY OR DICTIONARY-CODEBOOK FILE IS USED IN CONJUNCTION WITH THE OSIRIS SOFTWARE PACKAGE. THE OSIRIS DATA FILE IS CONSTRUCTED WITH A SINGLE LOGICAL RECORD OF 629 BYTES FOR EACH RESPONDENT.

IN THE SURVEY RESEARCH CENTER 1960 AMERICAN NATIONAL ELECTION STUDY, ONE PRE-ELECTION INTERVIEW AND ONE POST-ELECTION INTERVIEW WERE CONDUCTED WITH EACH RESPONDENT, WITH THE EXCEPTION OF 125 RESPONDENTS WHO WERE GIVEN ONLY THE PRE-ELECTION INTERVIEW, AND 22 RESPONDENTS WHO WERE GIVEN ONLY THE POST-ELECTION INTERVIEW. RESPONDENTS WHO WERE GIVEN ONLY ONE INTERVIEW HAVE BEEN CODED "NA" OR "INAP" IN THOSE VARIABLES FOR WHICH NO DATA WERE AVAILABLE. THE DATA ARE FORMATTED SUCH THAT INFORMATION FOR THE TWO WAVES IS CONTIGUOUS: THAT IS, FOR OSIRIS FORMATTED DATA, THE DATA FOR EACH RESPONDENT FOR BOTH WAVES ARE CONTAINED IN ONE LOGICAL RECORD; AND FOR CARD-IMAGE FORMATTED DATA, DECKS 1 THROUGH 10 CONTAIN THE DATA FOR EACH RESPONDENT FOR BOTH WAVES.

THE DATA ARE WEIGHTED; VARIABLE 600003 IS THE WEIGHT VARIABLE. THE UNWEIGHTED STUDY N IS 1181 AND THE WEIGHTED N IS 1954. SEE THE "SAMPLING INFORMATION" SECTION OF THIS INTRODUCTION FOR FURTHER INFORMATION ABOUT THE WEIGHTING PROCEDURES.

WEIGHTING AND FREQUENCIES

THE FREQUENCIES PROVIDED IN THIS CODEBOOK ARE WEIGHTED

int1960.txt

BY AN INTEGER WEIGHT VARIABLE (VARIABLE 600003), WHICH SHOULD ALWAYS BE USED IN DATA ANALYSIS PROCEDURES TO OBTAIN A REPRESENTATIVE SAMPLE. IF THE DATA ARE IN CARD-IMAGE FORMAT, THE WEIGHT VARIABLE IS LOCATED IN COLUMN 80 OF EACH DECK. SEE THE "SAMPLING INFORMATION" SECTION OF THIS INTRODUCTION FOR AN EXPLANATION OF THE ASSIGNMENT OF WEIGHTS TO THE VARIOUS CATEGORIES OF RESPONDENTS.

□>> 1960 CODEBOOK INFORMATION

The following example from the 1948 NES study provides the standard format for codebook variable documentation.

Note that NES studies which are not part of the Time-Series usually omit marginals and the descriptive content in lines 2-5 (except for variable name).

Line

```
1  =====
2  VAR 480026    NAME-R NOT VT-WAS R REG TO VT
3                COLUMNS 61    - 61
4                NUMERIC
5                MD=0 OR GE 8
6
7                Q. 17.  (IF R DID NOT VOTE)  WERE YOU REGISTERED (ELIGIBLE)
8                TO VOTE.
9                .....
10
11             82          1.  YES
12             149         2.  NO
13
14             0           8.  DK
15             9           9.  NA
16             422         0.  INAP., R VOTED
```

Line 2 - VARIABLE NAME. Note that in the codebook the variable name (usually a 'number') does not include the "V" prefix which is used in the release SAS and SPSS data definition files (.sas and .sps files) for all variables including those which do not have 'number' names. For example the variable "VERSION" in the codebook is "VVERSION" in the data definition files.

Line 2 - "NAME". This is the variable label used in the SAS and SPSS data definition files (.sas and .sps files). Some codebooks exclude this.

Line 3 - COLUMNS. Columns in the ASCII data file (.dat file).

Line 4 - CHARACTER OR NUMERIC. If numeric and the variable is a decimal rather than integer variable, the number of decimal places is

int1960.txt

also indicated (e.g. "NUMERIC DEC 4")

Line 5 - Values which are assigned to missing by default in the Study's SAS and and SPSS data definition files (.sas and .sps files).

Line 7 - Actual question text for survey variables or a description of non-survey variables (for example, congressional district). Survey items usually include the question number (for example "Bla.") from the Study questionnaire; beginning in 1996 non-survey items also have unique item numbers (for example "CSheet.1").

Line 9 - A dashed or dotted line usually separates question text from any other documentation which follows.

Line 10- When present, annotation provided by Study staff is presented below the question text/description and preceding code values.

Lines 11-16

Code values are listed with descriptive labels. Valid codes (those not having 'missing' status in line 5) are presented first, followed by the values described in line 5. For continuous variables, one line may appear providing the range of possible values. A blank line usually separates the 'valid' and 'missing' values.

Lines 11-16

Marginals are usually provided for discrete variables. The counts may be unweighted or weighted; check the Study codebook introductory text to determine weight usage.

□>> 1960 PROCESSING INFORMATION

THE CODEBOOK WAS PROCESSED ACCORDING TO STANDARD ICPSR PROCESSING PROCEDURES. THE DATASET WAS CHECKED FOR INCONSISTENT AND ILLEGAL CODES. WHEN ANY SUCH CODES WERE FOUND, THE INTERVIEW PROTOCOLS WERE CONSULTED TO OBTAIN THE CORRECT CODE VALUES. THE SYMBOLS < AND > ARE USED TO ENCLOSE COMMENTS OR EXPLANATIONS ADDED BY THE PROCESSOR TO PROVIDE FURTHER CLARIFICATION OF INFORMATION IN THE ORIGINAL CODEBOOK. IN THE TABLE OF CONTENTS, AN ASTERISK APPEARS AFTER EACH VARIABLE HAVING A SPECIAL ICPSR STANDARDIZED CODE.
