

CODEBOOK VARIABLE DOCUMENTATION  
1982 MERGED METHODS FILE

NES 1982 MERGED METHODS FILE  
VARIABLE ENTRIES

This file should be opened in fixed font, 10 pitch or smaller.  
Codebook introductory material and appendix material are in  
separate files.

-----

NOTE ON VARIABLE NAMING:

The variable name references used in NES Study codebooks do not include  
the "V" prefix found in all variable names used within the released  
SAS and SPSS data definition files (.sas and .sps files).

For example, "VAR 920001" and "VAR VERSION" in Study codebooks refer to  
V920001 and VVERSION in the study data definition files.

VARIABLE 'NUMBERING':

'Numbered' variables in NES timeseries datasets and in Pilot datasets  
(except the 1998 Pilot) comply with the following format:

2-digit year prefix + 4 digits + [opt] 1-char suffix.

Examples: 1978 Post variable V780002; 1983 Pilot variable V832101.  
Note that for datasets including data from multiple studies, the 2-digit  
year prefix corresponds to the appropriate study year to which the  
variable is associated; for example, the 1983 Pilot dataset also includes  
1982 timeseries variables, for which the 2-digit prefix is 82.

Non-time-series studies other than Pilots use 2-character mnemonic  
prefixes, for example variable VPS0048 in the 1988-1990-1992 Pooled  
Senate Study dataset.

SPECIAL NOTE ON COLUMN LOCATIONS:

Some numeric variables use coding schemes that allow for code values  
having a varying number of digits. In such instances, the number of  
of columns corresponding to the variable in the data file [.dat file]  
and in the column specifications will be the width of the maximum value  
occurring in the actual data, rather than the maximum width allowable  
by the coding scheme. For example, if codes 01-12 are allowed for a  
numeric variable but all values in the data are less than 10, then the  
number of columns corresponding to the variable within the ASCII data  
file will be 1.

=====

VAR MC0001 TP CASE ID (BUILT, Not entered by Coder)

02001 - 03418 Personal Interview  
00002 - 00832 ISR Telephone Interview  
50000 - 61111 Berkeley Telephone Interview

=====

VAR MC0002 TP Coder ID

001. 002. 003. 004. 005. 006. 007. 008. 009. 010. 210.

=====

VAR MC0003 TP Type of Sample and Survey Administration Mode

1. Personal interview - ISR area probability sample  
2. Telephone interview - ISR RDD half-sample  
3. Telephone interview - Berkeley RDD half-sample

=====

VAR MC0004 T Telephone Cluster Identification Number

A sequential ID number in the range 1-111 which identifies in unique fashion each of the clusters (100-number data bank) in the telephone sample.

(See next page for codes)

000. INAP, OMITTED FROM PERSONAL INTERVIEW

=====

VAR MC0005 T Number of congressional districts estimated to be represented in the geographic area covered by the telephone exchange.

1. One congressional district possible  
2. Two congressional districts possible  
3. Three congressional districts possible

0. INAP, Washington, D.C. telephone cluster; OMITTED FROM PERSONAL INTERVIEW

Telephone Cluster Identification Number

| Clstr ID | SE ID | Name             | Cluster ID | SE ID | Name                 |
|----------|-------|------------------|------------|-------|----------------------|

=====

VAR MC0008 TP State and Congressional District Code (ICPSR)--used in interview  
 First two digits are state (ICPSR code); last two digits are  
 actual 1982 congressional district number

5599 = Washington, D.C. XX98 = at-large district  
 XX00 = congressional district never assigned (TEL only)

Personal Interview: Code four-digit number pre-coded on  
 computerized label on facesheet of interview schedule  
 Telephone Interview: The state and congressional district (CD)  
 reported here corresponds to the CD assigned to the respondent in  
 the course of the telephone interview. This same district is  
 referenced in the battery of questions about congressional  
 candidates (Section E, Section J).

XX00 = CD assignment was not possible on the basis of  
 information provided by the telephone respondent--all  
 questions about congressional candidates skipped during  
 administration of interview.

=====

VAR MC0009 TP State and Congressional District Code (ICPSR)--verified  
 First two digits are state (ICPSR code); last two digits are  
 actual 1982 congressional district number

5599 = Washington, D.C. XX98 = at-large district

Personal Interview: Code four-digit number pre-coded on computerized label on facesheet of interview schedule

Telephone Interview: The state and congressional district (CD) reported here corresponds to the CD in which the telephone respondent actually resides. This was determined by checking telephone respondents' addresses on congressional district maps after the interview was conducted. This CD will match the CD assigned in V8 only if the telephone respondent correctly identified his/her district of residence in the course of the interview.

=====

VAR MC0010 TP           Type of Congressional Race (House of Representatives)  
for District identified in V8

- .
- .
- .
- 0131. January 31
- 9999. NA

=====

VAR MC0015 TP Household Composition - Adult (18 years and older)  
composition of Primary Family Unit

This variable included only those household members who were 18

or older, whether or not they were eligible to participate in the study on the basis of nationality.

- 10. One adult male head
- 11. One adult male head plus one other non-relative
- 12. One adult male head plus two or more other non-relatives
  
- 20. One adult female head
- 21. One adult female head plus one other non-relative
- 22. One adult female head plus two or more other non-relatives
  
- 30. One married couple
- 40. One married couple plus
- 50. One married couple plus
- 51. One married couple plus
- 52. One married couple plus
  
- 60. An unmarried male head
- 70. An unmarried male head plus two or more other relatives
  
- 80. An unmarried female head plus one other relative
- 90. An unmarried female head plus two or more other relatives
  
- 99. NA

=====

VAR MC0016 TP State and County Code (FIPS)--verified

The first two digits of this variable contain the FIPS state code; the last three digits contain the county code. See FIPS State and County Code

=====

VAR MC0017 T Congressional District Verification Status

- 1. The CD to which the respondent was assigned during the course of the interview corresponds to their actual CD of residence
- 2. The respondent was not assigned to a CD during the course of the interview but CD could be determined through map checks
- 3. The CD to which the respondent was assigned during the interview does not correspond to their actual CD of residence
- 4. Insufficient information to locate respondent's CD on maps, including both respondents who were and were not assigned to a CD during the course of the interview
  
- 0. OMITTED FROM PERSONAL INTERVIEW

=====

VAR MC0018 TP Respondent located in SMSA

- 1. SMSA
- 2. Not SMSA

=====

VAR MC0019 T Sampling Error Cluster ID

The 3-digit sampling error code contains information for computing sampling errors. Users who wish to compute sampling errors for this study should contact ICPSR for further

information needed to compute sampling errors.

Actual number is coded. (See p. 1a for codes)

000. INAP, OMITTED FROM PERSONAL INTERVIEW

=====  
VAR MC0020 T Interview Status

1. Complete interview
5. Minimum partial interview -- interviews completed with required minimum (see introduction for requirements)
0. INAP, OMITTED FROM PERSONAL INTERVIEW

=====  
VAR MC0021 T In this interview I will be talking with you about the recent elections, as well as a number of other topics. Before we begin I should tell you this interview is completely voluntary and confidential. If we should come to any question which you don't want to answer, just let me know and we'll go on to the next question. First, I need to know the name of the COUNTY you live in. Can you spell that name for me, please?

ACTUAL NAME OF COUNTY ENTERED (ALPHA)

REF - IF R REFUSES TO ANSWER  
DK - IF R DOESN'T KNOW

0. INAP, (0 for 30 characters) OMITTED FROM PERSONAL INTERVIEW

=====  
VAR MC0022 TP Respondent's county of residence (numeric)  
FIPS State and County Code

The first 2 digits of this variable contain the PIPS state code; the last 3 digits contain the county code.

(For CATI respondents the response to is coded here)

Coded for TELEPHONE only:

- 99997. Name R gave does not correspond to a county in R's state of residence
- 99998. DK
- 99999. NA

=====  
VAR MC0023 TP In this interview I will be talking with you about the recent elections, as well as a number of other things. First, I have some questions about the political campaigns which took place this election year.

- Al. Some people don't pay much attention to campaigns. How about you? Would you say that you were very much interested, somewhat interested, or not much interested in following the political campaigns this year?

- 8. DON'T KNOW
- 9. NA
- 0. (TEL)

VAR MC0092 TP C5. I'd like to get your feelings toward some of our political leaders and other people who are in the news these days. I'll read the name of a person and I'd like you to rate that person using this feeling thermometer. You may use any number from 0 to 100 for rating. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don't feel too favorable toward the person. If we come to a person whose name you don't recognize, you don't need to rate that person. Just tell me and we'll move on to the next one. If you do recognize the name, but don't feel particularly warm or cold toward the person, you would rate the person at the 50 degree mark.  
 Our first person is Jimmy Carter. How would you rate him using the thermometer?

a. JIMMY CARTER

VAR MC0380 TP H1. I am going to read a list of words and phrases  
 people use to describe political figures. For each,  
 please tell me whether the word or phrase describes  
 Ronald Reagan extremely well, quite well, not too  
 well, or not well at all.

Think about Ronald Reagan. The first word on our list is  
 "moral." In your opinion does the word "moral" describe  
 Reagan extremely well, quite well, not too well, or not well  
 at all? You can just tell me the number of your choice.

a. MORAL

1. EXTREMELY WELL
2. QUITE WELL
3. NOT TOO WELL
4. NOT WELL AT ALL

T The next question is about government spending and government services. Some people think the government should provide fewer services, even in areas such as health and education, in order to reduce spending. Other people feel it is important for the government to provide more services even if it means an increase in spending. Do you have an opinion on this topic or haven't you thought much about it?

1. YES, HAVE AN OPINION

5. NO, NO OPINION, OR HAVEN'T THOUGHT ABOUT IT

8. DON'T KNOW

Code actual number of floors (1-7) EXCEPT:

- 7. 7 or more floors
- 8. DK
- 9. NA
- 0. Inap, 1-2, 9 in 947

=====  
 VAR MC0950 TP FILTER: RECALL AND RECOGNITION OF CONGRESSIONAL CANDIDATES -- PERSONAL AND ISR: CATI

This filter variable was constructed to equate the Personal Interview for respondents who had telephones with the ISR: CATI Interview regarding correct recall and correct recognition of the congressional candidate(s) in the district of interview. The user is advised to use this variable in analyses of variables referencing congressional district candidates. (See introduction for further description) If there was not sufficient information to verify respondent's self-assigned district (coded 4 in V17) the assumption was made for this variable that the respondent had correctly assigned themselves and they are coded here according to their self-assignment procedure.

- 1. Respondent recalled congressional candidate(s) in CD of residence at C02AA (Recall series)
- 2. Respondent recognized congressional candidates in CD of residence C05M, C05N, C05P (Recognition series) for Personal; C05Q-C05Y (Recognition series) or D02 (Explicit verification) for ISR: CATI
- 3. Respondent failed to recall or recognize congressional candidate in CD of residence.
- 9. District of Columbia interview
- 0. Personal respondent without telephone; Berkeley: CATI respondent (3 in V3)

NOTE: This variable refers only to whether or not the respondent recalled or recognized their congressional candidate(s). Since CATI respondents sometimes volunteered conflicting information in the recall series, candidate recall did not always result in district assignment. For information on how respondents were assigned to a CD see V132.

=====  
 VAR MC0951 P R1. Was R's phone number obtained in recontact section?

- 1. Yes
- 5. No, phone number refused
- 7. No, no phone in housing unit
