Version 01 Codebook

CODEBOOK VARIABLE DOCUMENTATION
1993 PILOT STUDY
(1993.PNS)

                    NES 1993 PILOT CODEBOOK
                       VARIABLE ENTRIES

This file should be opened in fixed font, 10 pitch or smaller.
Codebook introductory material and appendix material are in
separate files.

NOTE ON VARIABLE NAMING:

The variable name references used in NES Study codebooks do not include
the "V" prefix found in all variable names used within the released
SAS and SPSS data definition files (.sas and .sps files).

For example, "VAR 920001" and "VAR VERSION" in Study codebooks refer to
V920001 and VVERSION in the study data definition files.

VARIABLE 'NUMBERING':

'Numbered' variables in NES timeseries datasets and in Pilot datasets
(except the 1998 Pilot) comply with the following format:

    2-digit year prefix + 4 digits + [opt] 1-char suffix.

Examples: 1978 Post variable V780002; 1983 Pilot variable V832101.
Note that for datasets including data from multiple studies, the 2-digit
year prefix corresponds to the appropriate study year to which the
variable is associated; for example, the 1983 Pilot dataset also includes
1982 timeseries variables, for which the 2-digit prefix is 82.

Non-time-series studies other than Pilots use 2-character mnemonic
prefixes, for example variable VPS0048 in the 1988-1990-1992 Pooled
Senate Study dataset.

SPECIAL NOTE ON COLUMN LOCATIONS:

Some numeric variables use coding schemes that allow for code values
having a varying number of digits. In such instances, the number of
of columns corresponding to the variable in the data file [.dat file]
and in the column specifications will be the width of the maximum value
occurring in the actual data, rather than the maximum width allowable
by the coding scheme. For example, if codes 01-12 are allowed for a
numeric variable but all values in the data are less than 10, then the
number of columns corresponding to the variable within the ASCII data
file will be 1.

1993 Pilot variables appear following 1992 Study variables.

==============================
VAR VERSION   NAME-NES VERSION NUMBER

```
            COLUMNS 1    - 2
            NUMERIC

            NO MISSING DATA CODES

                NES VERSION NUMBER
                ..................

==============================
VAR DSETNO    NAME-NES DATASET NUMBER
              COLUMNS 3    - 9
              CHARACTER

              NO MISSING DATA CODES

                NES DATASET NUMBER
                ..................

                This is dataset 1993.PNS

==============================
VAR 923004    NAME-92PRE CASE ID
              NO MISSING DATA CODES

              1992 PRE-ELECTION STUDY CASE ID OF RESPONDENT
              --------------------------------------------

              NOTE: There are three gaps in the sequence of pre-election
              case IDs: there are no cases numbered 3333, 3359 or 3362.
              Cases 2149, 2364 were included in the first release of this
              collection but will not appear in future releases.

              About 55% of the 1992 Election Study respondents were
              initially interviewed in the 1990 Election Study and
              therefore are panel respondents.  Please see introduction
              for further details of the 1992 Study Design.

                 0001-1126.  Cross-section respondent
                 2001-3364.  Panel respondent

==============================
VAR 923005    NAME-PANEL/CROSS INDICATOR
              NO MISSING DATA CODES

              1992 PANEL OR CROSS-SECTION INDICATOR
              -------------------------------------

           1359 1.  Panel respondent (Interviewed initially in the 1990
                     National Election Study).
           1126 2.  Cross-section respondent

 NOTE:
   THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
   HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
   APPLY TO 1992

==============================
VAR 923006    NAME-90POST CASE ID
              MD=0
```

```
                 1990 POST ELECTION STUDY CASE ID
                 -------------------------------

                 NOTE:   About 55% of the 1992 Election Study respondents
                 were initially interviewed in the 1990 Election Study.  This
                 is the case ID for those respondents in that study.  See the
                 introduction for a description of the 1992 study design.
                 This variable may be used to merge this data file with the
                 1990 election study (ICPSR 9548) or the 1990- 1991
                 [Panel/Pilot Study] Consequences of War Study (ICPSR 9673).

                 4-digit 1990 Post case number is entered, except:

                      0000.  INAP, 1992 Cross-section respondent

     NOTE:
        THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
        HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
        APPLY TO 1992

==============================
VAR 923007     NAME-1991 PANEL STATUS
               MD=0

               PANEL RESPONDENT'S STATUS FOR THE 1991 PANEL/PILOT STUDY
               -------------------------------------------------------

               All 1992 Election Study Panel respondents were interviewed
               in the 1990 Election Study.  Some were also interviewed in
               the 1991 Consequences of War Study (ICPSR 9673).  This
               variable denotes the respondent's status vis-a-vis the 1991
               Study.  See the introduction for a description of the 1992
               Study design.

          1060 1.   Interviewed in 1991
           116 4.   Defined as Non Sample for the 1991 Study
           183 5.   Did not give an interview in 1991

          1126 0.   INAP, 1992 Cross-section

     NOTE:
        THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
        HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
        APPLY TO 1992

==============================
VAR 923008     NAME-WEIGHT=PANEL/CROSS
               NO MISSING DATA CODES
               DEC=  4

               FULL SAMPLE WEIGHT
               ------------------

               This weight compensates for the unequal probabilities of
               selection for respondents in different size households and
               for differential nonresponse across geographic sample design
               categories and between panel and cross-section respondents.
               It is post-stratified to 1990 Census proportions for 24 age
               by sex by Census region categories. This is a 5 digit
               variable with 4 implicit decimal places.  The weight is
```

> centered with a mean of 1.0.
>
> This is the first time that NES has put out a weight which compensates for nonresponse, although it has now become a fairly standard part of survey data collections. Such a weight is particularly appropriate for descriptive statistics.
>
> See also V7000 and the Sample Design section of the introductory materials for the 1992 Pre- and Post-Election Survey.

 NOTE:
   THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
   HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
   APPLY TO 1992

```
==============================
VAR 923009    NAME-WEIGHT-PANEL ONLY
              NO MISSING DATA CODES
              DEC=  4
```

> PANEL ONLY WEIGHT
> ----------------
>
> This weight is to be used for analyses which use only the 1,361 panel cases; the supplemental cross-section cases (n=1,126) have a value of "0" in this field. The weight compensates for the unequal probabilities of selection for respondents in different size households, and for differential nonresponse across geographic sample design categories. It is post-stratified to 1990 Census proportions for 24 age by sex by Census region categories.
>
> This is a 5 digit variable with 4 implicit decimal places. The weight is centered with a mean of 1.0.
>
> V7000: TIME SERIES WEIGHT (Textual Description Only-- Actual variable location is as the next-to-last variable in the data file)
>
> This weight should be used in analyses in which the 1992 NES is being compared to earlier unweighted National Election Studies data collections. Variable 7000 corrects for panel attrition and for the aging of the panel respondents. Details on the construction of this variable are provided in the Sample Design section of the introductory materials for the 1992 Pre- and Post-Election Survey.
>
> The wight is centered with a mean of 1.0. Cases that are part of the new cross-section have a value of 1.0000 on variable 7000. This is a five-digit variable with four implicit decimal places.

 NOTE:
   THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
   HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
   APPLY TO 1992

```
==============================
```

```
VAR 923010    NAME-PRE ONLY OR PRE AND POST
              NO MISSING DATA CODES

              PRE-POST INDICATOR: 1992 ELECTION STUDY
              ---------------------------------------

         230  0.  R gave only a Pre-election interview
        2255  1.  R gave both a Pre and Post-election interview

  NOTE:
     THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
     HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
     APPLY TO 1992

==============================
VAR 923011    NAME-92PRE: FORM TYPE
              NO MISSING DATA CODES

              PRE-ELECTION FORM-SAMPLE INDICATOR
              ----------------------------------

              There were two forms for both the pre-election and post-
              election  questionnaires.  One, the "long questionnaire" was
              the standard form designed to be used for all face-to-face
              interviews.  The other, the "short questionnaire" was a
              truncated version of the questionnaire which was designed
              solely to interview over the phone panel respondents who
              since 1990 had moved to areas where SRC no longer had
              interviewers. The short version of the instrument should not
              have been used with cross-section cases; however, 4 cases
              were administered using these short questionnaires in error
              (code 4).  Regrettably, some panel respondents who had not
              moved out of range were administered the short form of the
              questionnaire. This variable in conjunction with v3071 will
              identify these cases.   These problems of administration are
              described in the introduction and in Technical Report #43,
              available from NES Project Staff.

              The Spanish Language short questionnaire was administered
              both to cross-section respondents and to panel respondents
              who were unable to be interviewed in English.

        1196  1.  Long questionnaire:  PANEL
        1117  2.  Long questionnaire:  CROSS-SECTION
         146  3.  Short questionnaire: PANEL
           4  4.  Short questionnaire: CROSS-SECTION (used in error)
          17  6.  PANEL Spanish Language short questionnaire
           5  7.  CROSS-SECTION Spanish Language short questionnaire

  NOTE:
     THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
     HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
     APPLY TO 1992

==============================
VAR 923012    NAME-3-DIGIT PRIMARY AREA
              NO MISSING DATA CODES

              PRIMARY AREA CODE (3 digits)
              ----------------------------
```

This is a 3-digit variable. The first digit indicates
whether a sample point comes from the 1990 sample (1=panel),
or from the 1992 (2=fresh cross-section). The last 2 digits
denote the primary area. Please note that: Monroe and
Ashley County AR both share PA# 77, and Phillips County, KS
and Saline, NE share PA #68. The original 1990 Primary
areas Monroe (68) and Saline (70) were depleted, so new
Primary areas had to be selected from the same sample
strata. For information on sample design please see:
"Sample Design of the 1992 Pre- and Post-Election Study" in
the introduction of this documentation.

```
===============================
VAR 923019    NAME-1992 CONG DISTRICT
               NO MISSING DATA CODES

              1992 CONGRESSIONAL DISTRICT NUMBER (2 digits)
              ---------------------------------------------

              This is a two-digit variable which, when combined with
              either the FIPS State Code (v3018) or the ICPSR State Code
              (v3017), gives the congressional district for the sample
              location in which the R resided at the time of our initial
              interview with him/her in 1990 (panel respondents) or 1992
              (cross-section respondents). This variable reflects the
              redistricting based on the 1990 Census, in effect for the
              1992 General Election.

              Note that this is not necessarily the congressional district
              in which panel R's lived in 1992, due to mobility, nor is it
              necessarily the district in which an R, cross-section or
              panel, voted in 1992, since respondents may have two
              residences, move bewtween the Pre- and Post-Election
              studies, be voting from a previous residence, etc. Variable
              5001 records the ICPSR state and district where R voted if
              different from the congressional district of their sample
              address.

              Actual values are coded, as documented in v3016, except:

                  98.   At-large
```

 NOTE:
    THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
    HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
    APPLY TO 1992

```
===============================
VAR 923020    NAME-1990 CONG DISTRICT
               NO MISSING DATA CODES

              1990 CONGRESSIONAL DISTRICT NUMBER
              ----------------------------------

              For panel respondents, this variable identifies the
              congressional district for the sample location in which R
              resided in 1990, as the district was configured before the
              1990 Census-based redistricting.  It is the same as the
              congressional district given for this respondent in the 1990
              dataset.

              For cross-section respondents, this variable identifies the
              congressional district number for the sample location in
```

which R resides, as it was prior to the 1990 Census-based
redistricting.

Actual values are coded, as documented in v3016, except:

    98. At-large

NOTE:
  THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
  HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
  APPLY TO 1992

```
==============================
VAR 923021    NAME-TYPE RACE HOUSE
              NO MISSING DATA CODES
```

      TYPE OF RACE: HOUSE OF REPRESENTATIVES

      The term incumbent as used in an election held just after
      redistricting requires some definition. An incumbent, as we
      use the term here and throughout the study, is a person who
      was in the 102nd Congress, just preceding this election.
      The incumbent may or may not have represented the particular
      piece of geography which is the sample segment in which the
      R was interviewed. That is, the incumbent may or may not
      have been R's representative in the preceding Congress. All
      incumbent related variables in the study should be used with
      this caution in mind. See also V7001.

      Listed here are the House races present in the 1992 sample.

      SEE APPENDIX NOTE

      INCUMBENT   CANDIDATE(S)

  1253 12. Democratic incumbent running -- Republican
              challenger
    77 14. "   "   "   -- Unopposed

   586 21. Republican incumbent running -- Democratic
              challenger
    30 24. "   "   "   -- Unopposed

    24 45. Two Republican incumbents running (LA06)

      The November 3rd election for the House of Representatives
      in Louisiana is really a primary run-off for the state.
      Congressional district 06 (LA06), a "new district," fielded
      candidates Richard H. Baker and Clyde C. Holloway, both of
      whom are Republicans and incumbents from old districts. In
      other circumstances, both would have been assigned #34 in
      the candidate list. In order to avoid restructuring the
      questionnaire, the House race in LA06 was treated as an open
      race with Baker #31 and Holloway #32. Code 45 in 3021
      should be used to exclude these cases from analysis
      pertaining to Democratic candidates.

        51. Democratic incumb. not running -- Dem. candidate
              unopposed

```
       1  52.  "           "        "    "        -- Rep. candidate
                    unopposed
     292  55.  "           "        "    "        -- Dem. & Rep.
                    candidates

     123  65.  Republican incumb. not running -- Dem. & Rep.
                    candidates

      99  85.  No identifiable incumbent, Dem and Rep candidates
                    in open race due to redistricting

             *Other-Third Party(s) or Independent
```

                    state

     243  95.  Two Senate races, including one open race and one
                    race with running Republican incumbent (CA)**
```

     ** Republican "incumbent" served partial term upon
     appointment by departing Senator.

     V7001: Was incumbent candidate respondent's representative
     in last Congress? (Textual Description Only--Actual variable
     location is as the last variable in the data file)

     Substantial reapportionment following the 1990 Census
     occurred between the elections to the 102nd Congress (1990)
     and the 103rd Congress (1992). Variables 3019 and 3020 give
     the 1992 and the 1990 congressional district numbers for the
     sample address in which the respondent resided at the time
     of their Pre-election interview.

Redistricting between the 1990 and 1992 elections was quite
extensive. As district boundary lines changed, it is
possible that the incumbent running for re-election in a
respondent's district was not the incumbent who had
previously represented the segment in which the respondent
lived. For example, for the 102nd Congress, Ann Arbor,
Michigan was in Michigan's 2nd District represented by Carl
Pursell. After redistricting, Ann Arbor was part of the
13th Congressional District whose incumbent, Representative
William Ford, ran for re-election to the 103rd Congress.
Ford's constituents now include Ann Arborites who had
previously been part of the 2nd District. These
constituents would be coded "2" on variable 7001, which
basically records whether respondent was represented by the
same or different incumbents in the 102nd and 103rd
Congresses.

    0.   Neither of the candidates for the 103rd Congress
       runing in respondents district was an incumbent in
       the 102nd Congress.

    1.   The incumbent who ran for re-election to the 103rd
       Congress in the congressional district for the
       sample segment in which respondent resided in 1992,
       is the same incumbent who represented that segment
       in the 102nd Congress.

    2.   The incumbent who ran for re-election in
       respondent's district in 1992 did not represent
       the sample segment in which respondent lives in
       the 102nd Congress.

    3.   LA06: Two Republican incumbents ran in 1992,
       neither of whom represented this segment in the
       102nd Congress.

    9.   Indeterminate; NA

PRE-ELECTION SAMPLE RELEASES AND REPLICATES

In order that analyses of respondents' reactions to the
campaigns not be confounded with ease or difficulty of
contacting respondents and persuading them to be
interviewed, NES has, since 1984, followed a strategy of
releasing Pre-election sample in stages. In 1984 and 1988,
there were four two-week target periods. In 1992, because
the sample design was unusually complicated, and quartering
the sample would have resulted in cost inefficiencies, we
released panel and cross-section sample in four week target
periods. The assignment of sample lines to target periods
was random. The sets of assigned lines are known as
"replicates."   The first replicate (55% of the sample

thought to be necessary if response and eligibility rates
were as estimated) was released on September 1st, the second
(45%) on October 1st.

Three replicates were designated as "reserve" to release as
needed, depending on an evaluation of sample performance as
of September 30th. At that time, it was decided to release
Reserve Replicates 4 and 5 on October 1st along with
replicate 2. (Although Reserve Replicate 3 was not
released, 12 respondents were interviewed from that
replicate, in error.)

```
1285   1.   Replicate 1, Released Sept.1st.
 995   2.   Replicate 2, Released Oct.1st.
  12   3.   Reserve Replicate 3, Not officially released [IWs
            conducted in error]
 119   4.   Reserve Replicate 4, Released Oct. 1st.
  74   5.   Reserve Replicate 5, Released Oct. 1st.
```

VAR 923024    NAME-92PRE: RELEAS SUMMARY
              NO MISSING DATA CODES

              PRE-ELECTION SAMPLE RELEASE -- SUMMARY
              -------------------------------------
```

              The interviewing time for the Pre-election, Sept. 1 to Nov.
              2, was divided into 2 periods: Sept. 1 - Sept. 30, to
              interview the first replicate; and Oct. 1 - Nov. 2, for
              subsequent replicates. This variable summarizes information
              on the time frame for the release of each replicate and the
              time of actual completion of the interview.

```
 969   1.   Sample released Sept. 1, interview completed before
            Oct. 1
 316   2.   Sample released Sept. 1, interview completed between
            Oct. 1 - Nov. 2
1197   3.   Sample released Oct. 1, interview completed between
            Oct. 1 - Nov. 2
   3   4.   Sample intended to be released Oct. 1, but by error
            released and interview completed before Oct. 1

       9.   NA

VAR 923031     NAME-92PRE: IW MODE
                MD=0 OR GE  9

                PRE-ELECTION: MODE OF INTERVIEW: TELEPHONE OR PERSONAL
                ------------------------------------------------------

                The study design called for face-to-face interviews for all
                respondents except for a few panel respondents who had moved
                out of the range of SRC interviewers. See v3071 for coding
                of whether the respondents were in range or not. A
                SHORT-FORM or abbreviated questionnaire (both English and
                Spanish) was prepared to use with these respondents over the
                phone. See v3011 which records use of short-form versus
                long-form questionnaires.  Telephone interviews were in fact
                taken with a number of cross- section respondents and a
                number of panel respondents who had not moved out of range.
                This situation is fully described in the introduction and in
                Technical Report #43, avaialble from NES Project Staff.

            2209  1.  Personal (face-to-face)
             276  2.  Telephone

              PRE-ELECTION: TYPE OF INCENTIVE SENT TO SELECTED HOUSEHOLD
              ----------------------------------------------------------
```

An incentive experiment was implemented in the 1991 Panel
study to determine whether a modest incentive would improve
response rate. Some respondents received a U of M pen along
with a letter asking for their participation, others
received the letter only. In 1992 all selected households
were sent an incentive also with the usual advance letter.
Respondents who had been sent a pen in 1991 were sent a book
of stamps in 1992.

```
VAR 923063    NAME-FIPS SMSA CODE
              MD=0

              FIPS 1980 SMSA CODE
              ------------------

              These FIPS SMSA codes were obtained from the Federal
              Information Processing Standard Publication, U.S. Department
              of Commerce, National Bureau of Standards.

              The 1980 SMSA Codes have for the most part been carried over
              by the Office of Management and Budget (OMB) to the 1990
              Metropolitan Statistical Areas (MSA's).  However, some MSA
              names and definitions have been modified by OMB to reflect
              shifts in population and changes in characteristics of
              areas.  In the 1992 NES data, the 1980 SMSA codes have been
              retained for all parts of the MSA primary sampling units
              (PSU's).  It should be remembered that, particularly in the
              case of PMSAs (which are part of consolidated areas (or
              CMSAs) some counties or county parts may in 1990 be defined
              by OMB as part of a different PMSA (a good example is
              Chicago, IL).  It was felt that for NES analysis, to retain
              the older SMSA codes, which correspond to the 1980 sampling
              frame used for this sample, was most appropriate for all MSA
              or PMSA areas.

              In those areas designated "Non-SMSA" in our sample frame
              ("Non-MSA" on most of our documentation for 1992 NES), there
              are two PSUs (#64, Gardner, MA, and #82, El Dorado/Alpine,
              CA) in which some of the 1980 rural area has in 1990 met the
              requirements for inclusion in an MSA; in these cases the
              size of place code was modified to reflect this and the 1990
              MSA number is indicated for the affected segments (Core
              segment 009 in Gardner, MA, where Barre town--not associated
              with any SMSA in 1980--is now a part of the 1990 Worchester,
              MA, MSA, and all of the NES segments in El Dorado/Alpine,
              CA,-- i.e., core segments 001 and 007 and panel segments
              002, 003, 005, 007, 009 and 011-- all in El Dorado county
              which is part of the 1990 Sacramento, CA, MSA.)

==============================
VAR 923065   NAME-SIZE OF PLACE
              NO MISSING DATA CODES

              SIZE OF PLACE OF INTERVIEW - 1990

              Coded according to the 1990 Census. The major objective of
              the Census Bureau in delineating urbanized areas is to
              provide a better separation of urban and rural population in
              the vicinity of large cities. An urbanized area consists of
              a central city or cities, and surrounding closely settled
              territory ("urban fringe"). Size of Place codes 21 and 41
              include areas that are in the "urban fringe" but are not
              Census Places.

              For the six largest CMSAs plus twelve of the fifteen next
              largest CMSA/MSAs (i.e., those coded 1 or 3 (possibly 5,
              rarely 6) on the Belt Code):

        285 11. Central Cities (these would have been coded 1 on
                    the Belt Code).

              Suburbs of the six largest CMSAs and twelve of the fifteen
              next largest CMSA/MSAs (coded 3 (sometimes 5 and rarely 6)
              on Belt Code):

         41 20. Rural (including rural places with less than 2500
                    population)
        140 21. 2,500-9,999 plus other urbanized areas ("urban
                    fringe" not in Census places)
        170 22. 10,000-29,999
         71 23. 30,000-49,999
        127 24. 50,000-99,999
         12 25. 100,000-149,999
          4 26. 150,000-349,999

        27. 350,000 and over, exclusive of cities coded 11

     CMSA/MSAs with less than 2,000,000 population (exclusive of
     those in the six largest CMSAs and 12 of 15 next largest
     CMSA/MSAs)

     Central Cities in CMSA/MSAs with less than 2,000,000
     population (coded 2 on Belt Code):

 40 30. Under 50,000 (identified by OMB in 1990 as Central
           Cities)
 49 31. 50,000-99,999
 42 32. 100,000-149,000
128 33. 150,000-349,999
 91 34. 350,000 and over

     Suburbs in CMSA/MSAs with less than 2,000,000 population
     (coded 4 (or 5 and rarely 6) on Belt Code):

238 40. Rural (including rural places with less than 2,500
           population)
237 41. 2,500-9,999 plus other urbanized areas ("urban
           fringe" not in Census Places)
 99 42. 10,000-29,999
 37 43. 30,000-49,999
 14 44. 50,000-99,999
 27 45. 100,000-149,999
  3 46. 150,000 and over

     "NON-CMSA/PMSA/MSAs"*   Population of place, within these
     "non-SMSA" areas, as reported in 1990 Census.

415 50. Rural (including places with less than 2,500
           population)
 89 51. 2,500-9,999
119 52. 10,000-29,999
  7 53. 30,000-49,999

     * In a few cases, Non-MSA PSUs (based on the 1980 OMB SMSA
     definitions) contain areas which are now part of a 1990 PMSA
     or MSA (based on the June 1990 OMB definition). In these
     cases, the Size of Place Code for any SSUs (segments) within
     such areas are coded in the "40s" rather than in the "50s"
     as shown below. This occurred in El Dorado county, CA (the
     major part of the El Dorado/Alpine Co, CA PSU #82) which is
     now a part of the Sacramento, CA, MSA, and also for one SSU
     (segment) in the Gardner, MA (PSU #64) which is now a part
     of the Worchester, MA, MSA.

    APPLY TO 1992

===============================
VAR 923067    NAME-BELT CODE
              NO MISSING DATA CODES

              BELT CODE - 1990 - NES
              ----------------------

              Coded according to the 1990 Census and 1990 OMB definitions,
              1990 census population reports and 1980 (since 1990 not
              available) maps showing "urban areas".

        285 1.  Central Cities* of the six largest** (population
                over 4,500,000) Consolidated Metropolitan
                Statistical Areas (CMSAs), plus 12*** of the 15 next
                largest CMSA/MSA (population over 2,000,000)

                This would include all 1980 National Sample Frame
                self-representing areas, plus Newark, NJ (as well as
                SRP Nassau-Suffolk NY as part of the NYC CMSA) and
                Anaheim and Riverside CA (as part of the LA CMSA)
                plus three other non-selfrepresenting primary areas
                included within the "population over 2,000,000"
                definition (Miami-Fort Lauderdale, FL CMSA,
                Seattle-Tacoma, WA CMSA, and Phoenix, AZ MSA).

        350 2.  Central Cities of CMSAs and Metropolitan Statistical
                Areas (MSAs) with fewer than 2,000,000 population
                (exclusive of those in the twenty-one largest
                CMSA/MSAs--i.e., those listed above)
        526 3.  Suburbs**** of the six largest CMSAs and 12 of the
                15 next largest CMSA/MSAs
        515 4.  Suburbs of all other CMSA/MSAs
        686 5.  Adjacent Areas:  includes all territory beyond the
                outer boundary of the suburban belt, but within
                fifty miles of the central business district of a
                central city
        123 6.  Outlying Area:  includes all territory more than
                fifty miles from the central business district of a
                central city

         * Central Cities as designated in Metropolitan Statistical
         Areas, 1990, U.S. Office of Management and Budget,
         Washington, DC (Jun 1990).
```

                ** Statistical Abstract of the United States 1991, (111th
                Edition), U.S. Department of Commerce, Economics and
                Statistics Administration, Bureau of the Census, Table No.
                38. "70 Largest Metropolitan Areas--Racial and Hispanic
                Origin Populations: 1990" Pp 33.

                *** Cleveland-Akron-Lorain, OH CMSA, Tampa-St Petersburg-
                Clearwater, FL CMSA and San Diego, CA MSA are not primary
                selections within the two-thirds SRC National Sample so do
                not occur in the 1992 NES data set.

                ***** Suburbs are defined as all "urbanized areas" in the
                Primary Area exclusive of the areas coded "1" and "2" above,
                plus the remainder of any county which includes a central
                city or parts of a central city. (NOTE: In the New England
                division where MSA boundaries do not follow county lines, it
                is necessary to limit this category to the SMSA part of a
                county which included a central city.)

===============================
VAR 923073    NAME-92PRE: SEL TABLE
              MD=0

              PRE-ELECTION, CROSS-SECTION: SELECTION TABLE
              --------------------------------------------

              The Selection Table is used to select a respondent from all
              household members who are eligible adults.  (An eligible
              adult is a U.S. citizen who is 18 years of age or older by
              Election Day.)  The Selection Table appears on the
              Coversheet below the Household Listing.

              After a complete listing of the HH is taken, each eligible
              adult is assigned a "Number" based on the criteria of gender
              and age [beginning with the oldest male as number 1, males
              are numbered by increments of 1 according to descending age;
              females are numbered by descending age starting with the
              number one higher than that assigned to the youngest male].
              The interviewer then uses the Selection Table to determine
              the "Number" of the eligible adult to be interviewed.

              The Selection Table itself consists of 2 parallel columns.
              In the first column the interviewer circles the total number
              of eligible adults in the household; in the second column
              (same row) is identified the "Number" of the person who will
              be the respondent.  Below is an example of what one
              Selection Table looks like [Table A]:

                   SELECTION TABLE A

                   If the number    Interview
                   of eligible      the person
                   persons is:      numbered:

                   1                1
                   2                1
                   3                1
                   4                1
                   5                1
                   6 or more        1

              There are 8 different Selection Tables used and they are
              randomly assigned.  [Note that although only 8 tables are
              used, there are 12 codes in this variable because the 8
              tables are used in cycles of 12; this procedure is used to
              equalize the probability of selection for each eligible
              adult].  A summary describing all 8 Selection Tables appears
              below.

    ===============================
    VAR 923077   NAME-92PRE: HH COMP
                   MD=0 OR GE 99

                    PRE-ELECTION, CROSS-SECTION: HOUSEHOLD COMPOSITION CODE

                    The HH composition code is derived from information provided
                    in the household listing. "Adults" are 18 years of age (by
                    election day) or older; all individuals included in the HH
                    composition codes below refer to adults.

                    A designation of a HH member as "the householder" (HHR)
                    describes HU member who owns or rents the home (in whose
                    name the lease is held). Cohabiting couples are coded as
                    married (30,40, 50-52). Roommates of opposite sex are coded
                    11,12,21,22; in all cases of unrelated roommates the

```
              respondent is HHR.

              See Note at 3072.

        127  10.  1 adult male HHR
          6  11.  1 adult male HHR plus 1 other non-relative
          4  12.  1 adult male HHR plus 2 or more non-relatives
        208  20.  1 adult female HHR
         14  21.  1 adult female HHR plus 1 other non-relative
          1  22.  1 adult female HHR plus 2 or more non-relatives
        561  30.  1 married couple: no children or all children
                     living at home are under 18
         84  40.  1 married couple plus 1 other relative
         40  50.  1 married couple plus 2 or more other relatives
          4  51.  1 married couple plus 1 other non-relative
          1  52.  1 married couple plus 2 or more non-relatives
         16  60.  1 unmarried male HHR plus 1 other relative
          3  70.  1 unmarried male HHR plus 2 or more other relatives
         40  80.  1 unmarried female HHR plus 1 other relative
         16  90.  1 unmarried female HHR plus 2 or more other
                     relatives
          1  95.  Relatives of opposite sex, unclear who is HHR

```
==============================
VAR 923078    NAME-92PRE: HH DESCR ALL
              MD=0 OR GE  99

              PRE-ELECTION: HOUSEHOLD DESCRIPTION FOR PANEL AND CROSS-
              SECTION
              -------------------------------------------------------

              This variable was built for cross-section cases using: (1)
              questions Y55-Y56d for information about R's children and
              children for which R is responsible living with R at least
              half time; and (2) the household composition variable (3077)
              and marital status variable (Y2) for information about other
              adults.  For cross-section cases, codes 10 and 11 correspond
              to 10 and 20 in 3077 (HH composition), codes 20 and 21
              correspond to 1 and 7 in Y2 (marital status), and codes
              30-31 correspond to cases in the non-married categories of
              Y2 (marital status) and not 10 nor 20 in CS15 (HH
              composition).  Note, however, that six cases [IDs
              39,92,224,359,599,704] coded 10 or 20 in the HH composition
              were actually cases of married Rs (spouse in nursing home,
              spouse living away due to work requirements, spouse in
              service), and these cases are included in codes 20-21 here.

              Since there was no Household Listing in 1992 for panel
              respondents, this variable was built using survey variables:
              (1) questions Y55-Y55d for information about R's children
              and children for which R is responsible living with R at
              least half time; and (2), since no HH composition variable
              is present, marital status (Y2) and question Y39 for
```

information about other "adults." This means that for Panel
cases coded 30-31, a person counted as another "adult" may
include a household member 14-17 years old as well as
persons 18 or older. Panel cases coded 10 and 11 correspond
to 1 in Y39, codes 20 and 21 correspond to 1 and 7 in Y2
(marital status), and codes 30-31 correspond to cases coded
2 in Y39 and not 1 nor 7 in Y2.

In all cases coded 20-21, adults other than R and spouse may
also be in household.

```
528  10.  One adult (R), no children
134  11.  One adult (R), child/ren

644  20.  Married/partnered couple including R, no children
642  21.  Married/partnered couple including R, child/ren

210  30.  2 or more adults (R not married), no children
 71  31.  2 or more adults (R not married), child/ren

 84  99.  NA
172  00.  INAP, 3-4, 6-7 in FS3
```

==============================
VAR 923305    NAME-92PRE: D2a. THERM BUSH
               MD=997 OR GE  998

               D2.  (RB, P.3) I'd like to get your feelings toward some of
               our political leaders and other people who are in the news
               these days.

               I'll read the name of a person and I'd like you to rate that
               person using something we call the feeling thermometer.
               Ratings between 50 degrees and 100 degrees mean that you
               feel favorable and warm toward the person.

               Ratings between 0 degrees and 50 degrees mean that you don't
```

feel favorable toward the person and that you don't care too
much for that person.

You would rate the person at the 50 degree mark if you don't
feel particularly warm or cold toward the person. If we
come to a person whose name you don't recognize, you don't
need to rate that person. Just tell me and we'll move on to
the next one.

Our first person is George Bush. How would you rate him
using the thermometer?

PROBE FOR "I DON'T KNOW" RESPONSE: When you say "don't
know" do you mean that you don't know who the person is, or
do you have something else in mind?

D2a. GEORGE BUSH <Feeling Thermometer>

==============================
VAR 923611    NAME-92PRE: J10.
               MD=GE  8

              NOTE: J10-J11b presented difficult problems for interviewers
              and respondents alike.  The intended reference was the
              incumbent of the 102nd Congress running for re-election as
              the district was constituted for the 103 rd Congress.  Thus,
              many respondents were asked to evaluate the performance of
              an incumbent who was not their Representative in the 102nd
              Congress.  Second, primaries were not held in FL, AZ, CT,NH,
              LA, MA MN NY, WA, WI until after the start of interviewing
              on September 1, so in many cases names of candidates were
              not decided at the start of interviewing.  The candidate
              names were given to interviewers as soon as they became
              available.

              of the Persian Gulf War on U.S.> (5 MENTIONS) <First
              mention>

              <See question J13 for complete question text>

              NOTE: This code has been updated from the one used for the
              1991 Political Consequences of War Study (ICPSR #9673)

              Good Effects

               68 11. National Unity--united the country; showed we can
                        pull together in a crisis/will support our troops
                        in war
               45 12. National Confidence--raised our self-
                        esteem/self-confidence; showed we are willing to
                        stand up for ourselves/not willing to be pushed
                        around; put to rest the self-doubts/bad feelings
                        over the Viet Nam war.
               96 13. Patriotism--increased pride in the nation/flag;
                        made people proud to be American
                3 14. Made people (more) aware of international
                        situation(s)
               21 16. U.S. Troops--low U.S. casualties; brought soldiers
                        back safely; troops performed well; good leaders
                        emerged during the war
                7 17. The Military--raised the morale/pride of our armed
                        forces; increased respect for the
                        military/veterans; gave the Viet Nam veterans the
                        approval/recognition they deserve
               33 18. Military Victory--we won; proved we are capable of
                        winning a war; showed that we could go into a war
                        to win; demonstrated that we could win a war
                        quickly/with minimum casualties
               63 19. Military Capability--successfully tested our
                        military capability; proved our high technology
                        weapons would work; proved that a volunteer army
                        could fight/defend the U.S.; raised confidence in
                        our defense systems/ program; gave us experience in
                        fighting against Soviet equipment/strategies;
                        gained experience in mobilization and deployment of
                        military forces.
              247 21. Respect--other nations have more respect for us; it
                        made the U.S. well-liked; demonstrated U.S.
                        leadership in the world; showed the world that we
                        are powerful; strengthened our position in the
                        world; will make other   countries
                        think twice before tangling with us
               68 22. Resolution--showed we are willing to back up our
                        words with actions/that we mean what we say/that we
                        keep our promises
              121 23. New World Order--showed we will stand up to

```
                          aggression/will protect our interests/are willing
                          to fight for what is right; shows we will protect
                          weaker countries from aggression by big
                          countries/that we will defend freedom and democracy
                          throughout the world; brought the U.S. recognition
                          as a peace-keeping nation/force; might deter other
                          dictators from trying the same thing in the future;
                          increased the chances/ opportunity for world peace
            36  24.  Collective Security--proved that the nations of the
                          world could work together for the good of mankind;
                          strengthened the United Nations as a force for
                          peace
             2  25.  Contributed to ending cold war/breakup of Soviet
                          Union/stopping spread of communism; improved
                          relations with Russia
            16  31.  U.S. Economy--strengthened/helped the economy;
                          decreased the trade deficit; unemployment went
                          down/ jobs opened up
           145  32.  Oil--secured our oil supply; we can get the oil we
                          need/more oil now; lowered the price of
                          oil/gasoline; kept Saddam Hussein from taking
                          control of the world's oil supply
            23  41.  Mideast Stability--increased the
                          stability/prospects for peace in the mideast.
            33  42.  Relations with Mideast Nations--improved our
                          relations with Israel/Arab countries/Gulf states
            54  43.  Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
                          Hussein from Kuwait
            74  44.  Iraq--defeated Iraq; destroyed Saddam Hussein's
                          military strength/ability to make nuclear or
                          biological weapons; stopped Iraq/Saddam Hussein
                          from taking over other countries; cut Iraq/Saddam
                          Hussein down to size
            37  49.  Other Good Effects

NOTE: This code has been updated from the one used for the
1991 Political Consequences of War Study (ICPSR #9673)

Good Effects

36 11. National Unity--united the country; showed we can
           pull together in a crisis/will support our troops
           in war
25 12. National Confidence--raised our self-
           esteem/self-confidence; showed we are willing to
           stand up for ourselves/not willing to be pushed
           around; put to rest the self-doubts/bad feelings
           over the Viet Nam war.
44 13. Patriotism--increased pride in the nation/flag;
           made people proud to be American
 1 14. Made people (more) aware of international
           situation(s)
 6 16. U.S. Troops--low U.S. casualties; brought soldiers
           back safely; troops performed well; good leaders
           emerged during the war
10 17. The Military--raised the morale/pride of our armed
           forces; increased respect for the
           military/veterans; gave the Viet Nam veterans the
           approval/recognition they deserve
16 18. Military Victory--we won; proved we are capable of
           winning a war; showed that we could go into a war
           to win; demonstrated that we could win a war
           quickly/with minimum casualties
38 19. Military Capability--successfully tested our
           military capability; proved our high technology
           weapons would work; proved that a volunteer army
           could fight/defend the U.S.; raised confidence in
           our defense systems/ program; gave us experience in
           fighting against Soviet equipment/strategies;
           gained experience in mobilization and deployment of
           military forces.
64 21. Respect--other nations have more respect for us; it
           made the U.S. well-liked; demonstrated U.S.
           leadership in the world; showed the world that we
           are powerful; strengthened our position in the
           world; will make other   countries
           think twice before tangling with us
34 22. Resolution--showed we are willing to back up our
           words with actions/that we mean what we say/that we
           keep our promises
50 23. New World Order--showed we will stand up to
           aggression/will protect our interests/are willing
           to fight for what is right; shows we will protect
           weaker countries from aggression by big
           countries/that we will defend freedom and democracy
           throughout the world; brought the U.S. recognition
           as a peace-keeping nation/force; might deter other
           dictators from trying the same thing in the future;
           increased the chances/ opportunity for world peace

```
 25  24.  Collective Security--proved that the nations of the
               world could work together for the good of mankind;
               strengthened the United Nations as a force for
               peace
  2  25.  Contributed to ending cold war/breakup of Soviet
               Union/stopping spread of communism; improved
               relations with Russia
  8  31.  U.S. Economy--strengthened/helped the economy;
               decreased the trade deficit; unemployment went
               down/ jobs opened up
 36  32.  Oil--secured our oil supply; we can get the oil we
               need/more oil now; lowered the price of
               oil/gasoline; kept Saddam Hussein from taking
               control of the world's oil supply
 15  41.  Mideast Stability--increased the
               stability/prospects for peace in the mideast.
 21  42.  Relations with Mideast Nations--improved our
               relations with Israel/Arab countries/Gulf states
 35  43.  Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
               Hussein from Kuwait
 36  44.  Iraq--defeated Iraq; destroyed Saddam Hussein's
               military strength/ability to make nuclear or
               biological weapons; stopped Iraq/Saddam Hussein
               from taking over other countries; cut Iraq/Saddam

               esteem/self-confidence; showed we are willing to
               stand up for ourselves/not willing to be pushed
               around; put to rest the self-doubts/bad feelings
               over the Viet Nam war.
    1 13.  Patriotism--increased pride in the nation/flag;
               made people proud to be American
      14.  Made people (more) aware of international
               situation(s)
      16.  U.S. Troops--low U.S. casualties; brought soldiers
               back safely; troops performed well; good leaders
               emerged during the war
      17.  The Military--raised the morale/pride of our armed
```

```
                    forces; increased respect for the
                    military/veterans; gave the Viet Nam veterans the
                    approval/recognition they deserve
             18.    Military Victory--we won; proved we are capable of
                    winning a war; showed that we could go into a war
                    to win; demonstrated that we could win a war
                    quickly/with minimum casualties
             19.    Military Capability--successfully tested our
                    military capability; proved our high technology
                    weapons would work; proved that a volunteer army
                    could fight/defend the U.S.; raised confidence in
                    our defense systems/ program; gave us experience in
                    fighting against Soviet equipment/strategies;
                    gained experience in mobilization and deployment of
                    military forces.
             21.    Respect--other nations have more respect for us; it
                    made the U.S. well-liked; demonstrated U.S.
                    leadership in the world; showed the world that we
                    are powerful; strengthened our position in the
                    world; will make other              countries
                    think twice before tangling with us
             22.    Resolution--showed we are willing to back up our
                    words with actions/that we mean what we say/that we
                    keep our promises
       1     23.    New World Order--showed we will stand up to
                    aggression/will protect our interests/are willing
                    to fight for what is right; shows we will protect
                    weaker countries from aggression by big
                    countries/that we will defend freedom and democracy
                    throughout the world; brought the U.S. recognition
                    as a peace-keeping nation/force; might deter other
                    dictators from trying the same thing in the future;
                    increased the chances/ opportunity for world peace
             24.    Collective Security--proved that the nations of the
                    world could work together for the good of mankind;
                    strengthened the United Nations as a force for
                    peace
             25.    Contributed to ending cold war/breakup of Soviet
                    Union/stopping spread of communism; improved
                    relations with Russia
       1     31.    U.S. Economy--strengthened/helped the economy;
                    decreased the trade deficit; unemployment went
                    down/ jobs opened up
             32.    Oil--secured our oil supply; we can get the oil we
                    need/more oil now; lowered the price of
                    oil/gasoline; kept Saddam Hussein from taking
                    control of the world's oil supply
             41.    Mideast Stability--increased the
                    stability/prospects for peace in the mideast.
             42.    Relations with Mideast Nations--improved our
                    relations with Israel/Arab countries/Gulf states
             43.    Kuwait--helped/liberated Kuwait; drove Iraq/Saddam
                    Hussein from Kuwait
       1     44.    Iraq--defeated Iraq; destroyed Saddam Hussein's
                    military strength/ability to make nuclear or
                    biological weapons; stopped Iraq/Saddam Hussein
                    from taking over other countries; cut Iraq/Saddam
                    Hussein down to size
       1     49.    Other Good Effects
```

             mentions.

             Bad Effects

          88 51.  Tarnished U.S. Image (NFS)--projected a bad image
                  of U.S. to the world/in poor countries/in the
                  mideast; lost us the respect of other nations;
                  generated ill will/made enemies for us in other
```

```
          countries
  29  52.  Aggressor Nation--gives us the image of being an
          aggressor/warmonger nation; makes us appear willing
          to fight for pay for anyone who has the money;
          makes it easier for us to use force again when
          faced with an international problem; might make us
          overconfident in our ability to get our way by use
          of force
   8  53.  International Policeman--made ourselves the
          international policeman; obligated ourselves to
          give military protection to all/other (small)
          countries
   7  61.  Foreign Deaths--a lot of innocent people in the
          mideast were killed, displaced or wounded; deaths
          in Israel from missile attacks; Iraqis killed
          during and after the war
  24  62.  Environmental Damage--burning oil wells polluting
          the air; oil released into the Gulf polluting water
          and beaches; damage done to wild fowl and sealife
   7  63.  War Damage--damage done to countries in the
          mideast; we will have to pay for/be responsible for
          cleaning up the damage done to Iraq/Kuwait/Israel
          during the war
   5  64.  Deepened Our Involvement--we are now more deeply
          involved in the politics of the mideast/in the
          Arab-Israeli problem
  25  71.  Hurt the U.S. Economy--caused a recession; people
          lost their jobs/can't find jobs
  10  72.  Energy Costs--increased the cost of oil/gasoline;
          didn't lower/change the cost of oil/gasoline; will
          decrease or has decreased the supply of oil in the
          world/destroyed oil wells
   2  73.  Oil Dependency--increased our dependence on
          (mideast) oil for energy; made us less willing to
          develop other sources of energy
 189  74.  Financial Cost--we spent a lot of money; lost a lot
          of supplies/armaments/equipment; need to raise
          taxes to pay for the war; increased our national
          debt
   3  75.  Neglected Domestic Needs--money diverted from
          domestic programs/needs in order to finance the war
      76.  Defense Spending--will encourage increased spending
          on defense; will lessen pressure to cut defense
          spending
  37  77.  Effect on U.S. Civilians--disrupted the lives of
          people called into the service/sent overseas;
          caused hardship for families of reservists called
          to active duty; created stress/emotional problems
          for children
  57  78.  Effect on U.S. Soldiers-- emotional/psychological
          problems caused by combat; medical
          problems/diseases contracted while in the Gulf;
          sexual assaults suffered by female soldiers
   9  79.  Bad effect on U.S. morale or character; caused
          internal divisions and/or unrest; nationalistic
          frenzy; distorted national goals and priorities;
          caused U.S. to do bad or immoral things
   8  80.  Military conduct of war was bad/doesn't reflect
          favorably on U.S.; American soldiers being killed
          by own forces; weapons that didn't work (properly);
```

```
                              bad or botched military strategy
        280  81.  Left Saddam in Power--didn't get rid of/punish
                  Saddam Hussein; didn't finish the job
          3  82.  Kuwait Not a Democracy--failure of Kuwait to
                  establish a democratic government;
                  repression/injustice being committed in Kuwait
                  since the end of the war
          4  83.  Failed Rebellion--we encouraged Iraqis to rebel
                  against Saddam Hussein then didn't support
                  them/left them to fight alone; Kurdish refugee
                  problem--all mentions
          3  84.  Troops Still in Iraq--we still have forces in Iraq;
                  the war is not over yet
          4  85.  "Iraqgate"--all mentions of selling arms to/failing
                  to restrain Iraq; diminished support for Gulf War/
                  confidence in government because of "Iraqgate"
                  events
          8  86.  Doubts about having been told the truth about the
                  conduct of the war/goals of the war; skepticism
                  about motives for going to war (e.g., political
                  play, gain economic advantages, protect oil supply)

             Miscellaneous Responses (Use for both F9a and F10a)

         26  87.  Solved No Problems--didn't resolve any of the
                  problem in the mideast; didn't cause the countries
                  in the mideast to unite/get along better; didn't
                  bring peace to the mideast
         22  88.  Didn't Accomplish Anything (NFS)--everything about
                  the war was bad; nothing good came from the war;
                  nothing (good) was accomplished

         39  89.  Other Bad Effects
          5  95.  Nothing that I can pinpoint/think of right now
                  (ONLY answer given by R)
          2  96.  I can't explain it/put it into words (ONLY answer
                  given by R)
         12  97.  Other Miscellaneous Response

          1  98.  DK; haven't really thought about it (first mention
                  only)
         16  99.  NA; refused; R only mentions loss of American
                  lives/people losing loved ones in the war (first
                  mention only)
       1552  00.  Inap, 3-4, 6-7 in V3011; 5, 8-9 in J14; no further
                  mention

              of the Persian Gulf War on the U.S.> (5 MENTIONS) <Third
              mention>
              ------------------------------------------------------------

              NOTE:   This code has been updated from the one used for the
              1991 Political Consequences of War Study (ICPSR #9673) 5
              mentions.

              Bad Effects

        6  51.  Tarnished U.S. Image (NFS)--projected a bad image
                     of U.S. to the world/in poor countries/in the
                     mideast; lost us the respect of other nations;
                     generated ill will/made enemies for us in other
                     countries
        5  52.  Aggressor Nation--gives us the image of being an
                     aggressor/warmonger nation; makes us appear willing
                     to fight for pay for anyone who has the money;
                     makes it easier for us to use force again when
                     faced with an international problem; might make us
                     overconfident in our ability to get our way by use
                     of force
           53.  International Policeman--made ourselves the
                     international policeman; obligated ourselves to
                     give military protection to all/other (small)
                     countries
           61.  Foreign Deaths--a lot of innocent people in the
                     mideast were killed, displaced or wounded; deaths
                     in Israel from missile attacks; Iraqis killed
                     during and after the war
        4  62.  Environmental Damage--burning oil wells polluting
                     the air; oil released into the Gulf polluting water
                     and beaches; damage done to wild fowl and sealife
        1  63.  War Damage--damage done to countries in the
                     mideast; we will have to pay for/be responsible for
                     cleaning up the damage done to Iraq/Kuwait/Israel
                     during the war
           64.  Deepened Our Involvement--we are now more deeply
                     involved in the politics of the mideast/in the
                     Arab-Israeli problem
           71.  Hurt the U.S. Economy--caused a recession; people
                     lost their jobs/can't find jobs
           72.  Energy Costs--increased the cost of oil/gasoline;
                     didn't lower/change the cost of oil/gasoline; will
                     decrease or has decreased the supply of oil in the
                     world/destroyed oil wells
        1  73.  Oil Dependency--increased our dependence on
                     (mideast) oil for energy; made us less willing to
                     develop other sources of energy
        7  74.  Financial Cost--we spent a lot of money; lost a lot
                     of supplies/armaments/equipment; need to raise
                     taxes to pay for the war; increased our national
```

```
        debt
   75.  Neglected Domestic Needs--money diverted from
        domestic programs/needs in order to finance the war
   76.  Defense Spending--will encourage increased spending
        on defense; will lessen pressure to cut defense
        spending
 1 77.  Effect on U.S. Civilians--disrupted the lives of
        people called into the service/sent overseas;
        caused hardship for families of reservists called
        to active duty; created stress/emotional problems
        for children
 1 78.  Effect on U.S. Soldiers-- emotional/psychological
        problems caused by combat; medical
        problems/diseases contracted while in the Gulf;
        sexual assaults suffered by female soldiers
 1 79.  Bad effect on U.S. morale or character; caused
        internal divisions and/or unrest; nationalistic
        frenzy; distorted national goals and priorities;
        caused U.S. to do bad or immoral things
   80.  Military conduct of war was bad/doesn't reflect
        favorably on U.S.; American soldiers being killed
        by own forces; weapons that didn't work (properly);
        bad or botched military strategy
 8 81.  Left Saddam in Power--didn't get rid of/punish
        Saddam Hussein; didn't finish the job
 1 82.  Kuwait Not a Democracy--failure of Kuwait to
        establish a democratic government;
        repression/injustice being committed in Kuwait
        since the end of the war
 2 83.  Failed Rebellion--we encouraged Iraqis to rebel
        against Saddam Hussein then didn't support
        them/left them to fight alone; Kurdish refugee
        problem--all mentions
   84.  Troops Still in Iraq--we still have forces in Iraq;
        the war is not over yet
   85.  "Iraqgate"--all mentions of selling arms to/failing
        to restrain Iraq; diminished support for Gulf War/
        confidence in government because of "Iraqgate"
        events
   86.  Doubts about having been told the truth about the
        conduct of the war/goals of the war; skepticism
        about motives for going to war (e.g., political
        play, gain economic advantages, protect oil supply)

   Miscellaneous Responses (Use for both F9a and F10a)

 2 87.  Solved No Problems--didn't resolve any of the
        problem in the mideast; didn't cause the countries
        in the mideast to unite/get along better; didn't
        bring peace to the mideast
 5 88.  Didn't Accomplish Anything (NFS)--everything about
        the war was bad; nothing good came from the war;
        nothing (good) was accomplished

 6 89.  Other Bad Effects
   95.  Nothing that I can pinpoint/think of right now
        (ONLY answer given by R)
   96.  I can't explain it/put it into words (ONLY answer
        given by R)
 1 97.  Other Miscellaneous Response
```

```
               98.  DK; haven't really thought about it (first mention
                    only)
               99.  NA; refused; R only mentions loss of American
                    lives/people losing loved ones in the war (first
                    mention only)
          2433  00.  Inap, 3-4, 6-7 in V3011; 5, 8-9 in J14; no further
                    mention
```

VAR 923635    NAME-92PRE: K2a. B INTELLIG
```

```
           MD=GE   8

           K2.  (RB, P. 12) I am going to read a list of words and
           phrases people may use to describe political figures.  For
           each, tell me whether the word or phrase describes the
           candidate I name.

           Think about George Bush.  In your opinion does the phrase
           "he is intelligent" describe George Bush extremely well,
           quite well, not too well, or not well at all?

           K2a.   INTELLIGENT?
           ----------------------------------------------------------

           584  1.   EXTREMELY WELL
          1419  2.   QUITE WELL
           360  3.   NOT TOO WELL
            92  4.   NOT WELL AT ALL

VAR 923701    NAME-92PRE: L1a. SPEND/SERV
              MD=0 OR GE  8

              L1.  (RB, P. 13) Some people think the government should
              provide fewer services, even in areas such as health and
              education in order to reduce spending. Suppose these people
              are at one end of the scale at point 1. Other people feel it
              is important for the government to provide many more
              services even if it means an increase in spending.  Suppose
              these people are at the other end, at point 7.  And of
              course, some other people have opinions somewhere in between
              at points 2, 3, 4, 5, or 6.

              L1a.  Where would you place yourself on this scale, or
              haven't you thought much about this?

==============================
VAR 923746    NAME-92PRE: L19a. UNREST 7P
              MD=0 OR GE  8

              L19.  (RB, P. 19) There is much discussion about the best
              way to deal with the problem of urban unrest and rioting.
              Some say it is more important to use all available force to
              maintain law and order -- no matter what results.  Others
              say it is more important to correct the problems of poverty
              and unemployment that give rise to the disturbances. And, of
              course, other people have opinions in between.

              L19a.  Where would you place yourself on this scale, or
              haven't you thought much about this?
              ---------------------------------------------------------------

              NOTE: Due to a design error, abbreviated telephone (short
              form) and Spanish language questionnaires were produced with
              the L19a scale printed reversed in the text. Because
              interviewers handled this problem in different ways, it was
              impossible to determine which scale position a number given
              by Rs response corresponds.  Therefore, all cases of short
              form or Spanish questionnaires (3,4,6,7 in V3011) have been
              coded 9 (NA) in L19a.

VAR 923801    NAME-92PRE: M1a. WOMAN EQ ROL
              MD=0 OR GE  8

              M1.  (RB, P. 20) Recently there has been a lot of talk about
              women's rights. Some people feel that women should have an
              equal role with men in running business, industry, and
              government.  Others feel that women's place is in the home.

              M1a.  Where would you place yourself on this scale, or
              haven't you thought much about this?
              ------------------------------------------------------------

         1263  1.   WOMEN AND MEN SHOULD HAVE AN EQUAL ROLE

VAR 923850    NAME-92PRE: X4z. R RELIGION
              MD=0 OR GE  998

              X4z.  R's Religious Affiliation SUMMARY
              ---------------------------------------

              This set of religion codes, which was first used in the NES
              time series in 1990, was developed by a group of scholars
              headed by David Leege of the University of Notre Dame and is
              still in the process of refinement.  A few changes have been
              made since the 1990 version: codes 127 and 133 have been
              combined into code 127 [no 1992 code 133]; code 102 has been
              moved to become code 306 [no 1992 code 102]; and codes 267
              and 261 have been added [new].
```

Those interested in comparing 1992 codes to the set of codes
in use through 1988, please see Addendum B

Users who wish to understand the inner working of the
religion section and summary are strongly encouraged to
examine the questionnaire.

Variable 3850 (X4z) contains the information gathered in
question X3a,b; X4; X4a-k; X5; X5a and X6a,b. Information
collected in open-ended responses (7 in X4a, X4b, X4c, X4d,
X4e, X4f, X4g, X4h, X4i, X4j; open-ended responses for codes
18, 19, 21, 31 in X4) have been hand-coded into this summary
variable. 1990 data for panel short form cases (3 in V3011)
have been added to this variable (Although 1990 data were
not added to the individual variables from which the summary
was built).

R's with NO RELIGIOUS PREFERENCE OR IDENTIFICATION have in
all past years been included in missing data. To maintain
consistency with past practice, such cases appear in missing
data code 0 in this variable, but some users may wish to
include these cases as valid data.

GENERAL PROTESTANT

60 010. Protestant, no denomination given

==============================
VAR 923903    NAME-92PRE: Y1x. R AGE
              MD=0 OR GE  98

              Y1x.  Recoded AGE
              ----------------

              This question was not asked of respondents on the short form
              questionnaire.  For panel short form respondents the data
              for this variable was copied from their 1990 Post-election
              responses.

              This variable was built by subtracting the month and year of
              R's birth from month and year of interview.  For short form
              cross section (4 in V3011) and those cases who refused to
```

```
            give us their date of birth, we either transferred here
            their age from the Household Listing in the Cover Sheet
            (cross-section), or we updated their age from 1990 (panel).

                 17.
                  .
                  .
                 90.
                 91.  91 years or older
                 00.  NA; 4 in V3011

   NOTE:
      THIS VARIABLE DOCUMENTATION DESCRIBES ONE OF THE 1992 VARIABLES THAT
      HAVE BEEN ATTACHED TO THE 1993 PILOT DATA FILE; ANY MARGINALS AND INAPS
      APPLY TO 1992

===============================
VAR 923904    NAME-92PRE: Y2. R MARITAL ST
              MD=0 OR GE  8

              Y2.  Are you married now and living with your
              (husband/wife)-- or are you widowed, divorced, separated, or
              have you never married?
              -----------------------------------------------------------

              NOTE:  Y2 was not asked of panel respondents interviewed
              using the "short form" questionnaire, and their marital
              status from 1990 was copied here.  For 22 cases the 1990
              data were inconsistent with the Y21 CHECKPOINT in 1992,
              alerting us to possible changes in marital status.  Each
              case was reviewed and Y2 was corrected using information
              from the cover sheet, the thumbnail sketch and other
              variables.  Y2 then represents our best estimate of R's
              PRESENT MARITAL STATUS.

              If it is known that R is not currently married/partnered (1
              in Y3c), but R refused to define specific status either as
              never married, divorced, separated or widowed, then code 8
              has been used.

              If spouse is in nursing home or spouse works and lives in
              another city, or if R's family is in the process of moving
              and is temporarily split between two residences, code 1 is
              used.

           1352  1.  MARRIED AND LIVING WITH SPOUSE (OR SPOUSE IN
                     SERVICE)
            400  2.  NEVER MARRIED
            283  3.  DIVORCED
             81  4.  SEPARATED
            275  5.  WIDOWED
             84  7.  PARTNERS NOT MARRIED (VOL.)

              5  8.  R not married/partnered (1 in Y3c), R refused to say
                     whether never married, divorced, separated or
                     widowed
              1  9.  NA
              4  0.  Inap, 4 in V3011

==============================
VAR 924042    NAME-REC:S/PT 80 CENSUS OCCUP
                MD=0 OR GE  99

              The stacked series of variables 4042-4051 combines
              occupation information about spouse from the "working now",
              "unemployed/retired/disabled" and "homemaker/student"
              sections.

              RC1001.  WHAT IS/WAS HIS/HER (SPOUSE'S/PARTNER'S) MAIN
              OCCUPATION?  WHAT SORT OF WORK DO/DID HE/SHE DO?

              RC1001A.  WHAT ARE/WERE HIS/HER MOST IMPORTANT ACTIVITIES OR
              DUTIES?
              ----------------------------------------------------------

              THIS VARIABLE COMBINES DATA FROM ALL RESPONDENTS'
              SPOUSES/PARTNERS WHO ARE CURRENTLY EMPLOYED, TEMPORARILY
              LAID OFF, UNEMPLOYED, RETIRED, OR PERMANENTLY DISABLED.
              [HOMEMAKERS OR STUDENTS WITHOUT OUTSIDE EMPLOYMENT ARE
              CODED 0.]  IF RESPONDENT'S SPOUSE/PARTNER WAS CODED 15 OR 51
              (WORKING NOW AND RETIRED) IN Y22, HIS/HER FORMER OCCUPATION
              INFORMATION WAS USED.

              The original 3-digit 1980 US Census Occupation variable has
              been recoded into 71 subgroups, in order to protect
              Respondent's/spouse's/ partner's anonymity.  Contact NES
              Project Staff for information about a procedure by which it
              is possible to gain access to the full 3-digit code values.

              See 1980 CENSUS OCCUPATION Master Code.

==============================
VAR 924103    NAME-92PRE: Y39.
              MD=0 OR GE  8

              NES income variables traditionally are administered by
              showing respondents a list of income groups (24 categories
              in all), and asking them which one corresponds to their
              situation.  This procedure cannot be easily duplicated over
              the phone.  Income information from the "long form"
              questionnaire was originally coded in variables 4103-4105.
              Information from the "short form" telephone questionnaire
              was coded in variables 4106-4110.  For the users'
              convenience the information from the "short form" was copied
              into variables 4103-4105.  For a complete layout of the
```

```
         income section in each form please see the composite
         questionnaire.

         Y39.  INTERVIEWER CHECKPOINT
         ------------------------------------------------------------

         NOTE: ALTHOUGH THIS IS THE LONG-FORM CHECKPOINT, DATA FROM

         THE SHORT FORM CHECKPOINT HAVE BEEN DUPLICATED HERE.

VAR 924111    NAME-92PRE: Y42.
              MD=0 OR GE  8

              Y42.  There's been some talk these days about different
              social classes.  Most people say they belong either to the
              middle class or the working class.  Do you ever think of
              yourself as belonging in one of these classes?
              -----------------------------------------------------------

==============================
VAR 925003   NAME-92POST: IW MODE
          MD=0 OR GE 9

          POST-ELECTION: MODE OF INTERVIEW TELEPHONE, PERSONAL

          The study design called for face-to-face interviews for all
          respondents except for a few panel respondents who had moved
          out of the range of SRC interviewers. See v3071 for coding
          of whether the respondents were in range or not. A
          SHORT-FORM or abbreviated questionnaire was prepared to use
          with these respondents over the phone. See v5002 which
          records use of short-form versus long- form questionnaires.
          Telephone interviews were in fact taken with a number of
          cross-section respondents and a number of panel respondents
          who had not moved out of range. This situation is fully
          described in the introduction, pp. v and in Technical
          Report #43, available from NES Project Staff.

==============================
VAR 925108    NAME-92POST:A4. CARE ELECT
              MD=0 OR GE  8

              Throughout the post-election questionnaire, whenever the
              term "incumbents" is used in the documentation or
              questionnaire , we are referring to a representative who was
              a member of the 102nd Congress, i.e, prior to the 1992
              General election.  Due to the U.S. Census based
              redistricting, the incumbents district for the 103rd
              Congress may consist of a fairly different geographical area
              from the area covered by the district prior to the boundary
              changes.  Therefore, the "incumbent" may or may not have
              been the respondent's district's incumbent before 1992.

              An additional complication is that a panel respondent may
              have moved since we interviewed them in 1990, or
              pre-election respondents may have moved between the pre- and
              the post-election interview. Unless stated otherwise survey
              questions always refer to R's original locations.

              A4.  As you know, representatives to Congress in Washington
              were chosen in this election from congressional districts
              all around the country. How much would you say that you
              personally cared about the way the election to the U.S.
              House of Representatives came out:  did you care very much,
              pretty much, not very much, or not at all?
              -----------------------------------------------------------

                 398  1.  VERY MUCH
                 762  2.  PRETTY MUCH
                 681  4.  NOT VERY MUCH
                 208  5.  NOT AT ALL

                   5  8.  DK
                  11  9.  NA

===============================
VAR 925301   NAME-92POST:B1a. TH BUSH
               MD=888 OR GE 997

                    B1. (RB, P. 3) Please turn to page three of this booklet.
                    I'd like to get your feelings toward some of our political
                    leaders and other people who are in the news these days.
                    I'll read the name of a person and I'd like you to rate that
                    person using something we call the feeling thermometer.
                    Ratings between 50 degrees and 100 degrees mean that you
                    feel favorable and warm toward that person.

                    Ratings between 0 degrees and 50 degrees mean that you don't
                    feel favorable toward the person and that you don't care too
                    much for that person. You would rate the person at the 50
                    degree mark if you don't feel particularly warm or cold
                    toward the person. If we come to a person whose name you
                    don't recognize, you don't need to rate that person. Just
                    tell me and we'll move on to the next one.

                    Our first person is George Bush. How would you rate him
                    using the feeling thermometer?

                    B1a. GEORGE BUSH

                MD=0 OR GE  98

               D8a/D11a.  Who did you vote for? <In U.S. House election>
               ------------------------------------------------------------

               NOTE:  code 97 includes a few instances where R volunteered
               that he/she voted "a straight ticket" but no candidate for
               R's party ran; it also includes a few cases where R insists
               that he/she voted for a specific party's candidate but there
               was no candidate from that party. For Rs who voted outside
               of sample location district, code 97 includes House
               candidate, whose name is given but CD and party are not
               known, and also includes cases where R names candidate but
               name is not among names of candidates in 'outside' CD.

               CODES 31-36 IF R VOTED IN DISTRICT OF SAMPLE LOCATION:

               138  31.  Democratic candidate in open House race (incl. 2nd
                          Republican candidate for LA06--see LA06 note in
                          V3021.  Use V3021=45 to exclude these cases.)
               113  32.  Republican candidate in open House race
               567  33.  Democratic House incumbent
               241  34.  Republican House incumbent
                93  35.  Democratic House challenger
               178  36.  Republican House challenger

                CODES 81-92 VOTED OUTSIDE DISTRICT OF SAMPLE LOCATION:

                Districts with No Running Incumbents

                    81.  Dem. Candidate
                  6 82.  Rep. Candidate

                Districts with Running Incumbents

                 13 83.  Dem. Incumbent
                 11 84.  Rep. Incumbent
                  4 85.  Dem. Challenger
                  6 86.  Rep. Challenger

                All districts outside district of sample location:

                    91.  Democrat -- no name given
                    92.  Republican -- no name given
```

```
          ALL Rs:

       22  97.  Name not on candidate list; 3rd party or
                independent candidate not appearing on candidate
                list

       57  98.  DK, refused to name candidate
        7  99.  NA
     1029  00.  Inap, no post-interview; 6-7, 9 in D1; 5-6, 8-9 in

==============================
VAR 925627    NAME-92POST:D10a/D12a.
              MD=0 OR GE  98

              D10a/D12a.  (SENATE VOTE) Who did you vote for?
              ----------------------------------------------

              SEE NOTE D10/D12.

              FOR CALIFORNIA RESIDENTS:  There were two Senate races in
              California, one for a full term, the other for a special
              election to fill an unexpired term.  Vote for the regular
              election is duplicated here.  See D10b1/D12a1 and
              D10b2/D12a2.

              In two cases R voted in CA, outside state of sample address.
              Because there is only one variable for Senate vote for Rs
              not living in California, R's vote in the regular (full
              term) CA Senate election has been coded here.  These two Rs'
              votes in the special CA Senate election are as follow:  post
              case 3718: candidate 84; post case 5360: candidate 85.

              CODES 11-16 IF R VOTED IN STATE OF SAMPLE LOCATION:

          175  11.  Democratic candidate in open Senate race
          118  12.  Republican candidate in open Senate race
          179  13.  Democratic Senate incumbent
          222  14.  Republican Senate incumbent
          168  15.  Democratic Senate challenger
           87  16.  Republican Senate challenger

              CODES 81-92 IF R VOTED OUTSIDE STATE OF SAMPLE LOCATION:

              States with No Running Incumbents

            3  81.  Dem. Candidate
            3  82.  Rep. Candidate

              States with Running Incumbents

            3  83.  Dem. Incumbent
            3  84.  Rep. Incumbent
            1  85.  Dem. Challenger
            1  86.  Rep. Challenger

              All states outside sample location:

               91.  Democrat -- no name given
               92.  Republican -- no name given

              ALL Rs:

           18  97.  Name not on candidate list; 3rd party or
                    independent candidate not appearing on candidate
                    list

           22  98.  DK, refused to name candidate
           10  99.  NA
         1472  00.  Inap, no post-interview; 03, 12, 23, 33, 35, 40,
```

```
                            48, 54, 56, 68, 71 in V3017; 6-7, 9 in D1; 5- 6,
                            8-9 in D1a; 2 in D2c; 2-3 in D9; 5, 7-9 in D10/D12;
                            R voted out of state (9 in D9 exc. short form) and
                            no Senate race where R voted; R voted in CA but not

VAR 926120    NAME-92POST:M5.TRUST IN GOVT
              MD=0 OR GE  8

              People have different ideas about the government in
              Washington.  These ideas don't refer to Democrats or
              Republicans in particular, but just to the government in
              general.  We want to see how you feel about these ideas. For
              example:

              M5.  How much of the time do you think you can trust the
              government in Washington to do what is right--just about
              always, most of the time, or only some of the time?
              ----------------------------------------------------------
                  71   1.   JUST ABOUT ALWAYS
                 581   3.   MOST OF THE TIME
                1528   5.   SOME OF THE TIME

VAR 926221    NAME-92POST:P3/A.HRD WRK-WHIT
               MD=0 OR GE  8

               P3.  (RB, P. 18) Now I have some questions about different
               groups in our society.  I'm going to show you a seven-point
               scale on which the characteristics of the people in a group
               can be rated.  In the first statement a score of 1 means
               that you think almost all of the people in that group tend
               to be "hard-working."  A score of 7 means that almost all of
               the people in the group are "lazy."  A score of 4 means that
               you think that most people in the group are not closer to
               one end or the other, and of course you may choose any
               number in between.

               P3a.  Where would you rate whites in general on this scale?
               -------------------------------------------------------------

               234  1.   HARD-WORKING
               477  2.

              MD=0 OR GE  8

              Q2.  (RB, P. 21) There are several different ideas about how
              to teach children who don't speak English when they enter
              our public schools.  Which one of the following three
              statements best describe how you feel:
              -------------------------------------------------------------

          735  1.   ONE, ALL CLASSES SHOULD BE CONDUCTED ONLY IN ENGLISH
                    SO THAT CHILDREN HAVE TO LEARN ENGLISH RIGHT FROM
                    THE START.
         1082  2.   TWO, CHILDREN WHO DON'T KNOW ENGLISH SHOULD HAVE
                    CLASSES IN THEIR NATIVE LANGUAGE JUST FOR A YEAR OR
                    TWO UNTIL THEY LEARN ENGLISH.
          395  3.   THERE SHOULD BE ONE SET OF CLASSES IN ENGLISH AND
                    ANOTHER SET IN SPANISH OR OTHER LANGUAGES ALL THE
                    WAY THROUGH HIGH SCHOOL SO THAT CHILDREN CAN KEEP UP
                    THEIR NATIVE LANGUAGES AND CULTURE IF THEY CHOOSE.

              MD=0 OR GE 8

              Q4. (RB, P. 22) Many different groups of people have come
              to the United States at different times in our history. In
              recent years the population of the United States has been
              changing to include many more people of Hispanic and Asian
              background. I'm going to read a list of things that people
              say may happen because of the growing number of Hispanic
              people in the United States. For each of these things,
              please say how likely it is to happen.

              Q4a. How likely is it that the growing number of Hispanics
              will improve our culture with new ideas and
              customs--extremely likely, very likely, somewhat likely, or
              not at all likely?

===============================
VAR 937000    WAS INCUMBENT CANDIDATE R'S REPRESENTATIVE IN LAST
                       CONGRESS?

         Substantial reapportionment following the 1990 Census occurred
         between the elections to the 102nd Congress (1990) and 103rd
         Congress (1992).  Variables 3019 and 3020 give the 1992 and the
         1990 congressional district numbers for the sample address in
         which the respondent resided at the time of their Pre-election
         interview.

         Redistricting between the 1990 and 1992 elections was quite
```

extensive. As district boundary lines changed, it is possible
that the incumbent running for re-election in a respondent's
district was not the incumbent who had previously represented the
segment in which the respondent lived. For example, for the
102nd Congress, Ann Arbor Michigan was in Michigan's 2nd District
represented by Carl Pursell. After redistricting, Ann Arbor was
part of the 13th Congressional District, whose incumbent,
Representative William Ford, ran for re-election to the 103rd
Congress. Ford's constituents now include Ann Arborites who had
previously been part of the 2nd District. These constituents
would be coded "2" on variable 7001, which basically records
whether R was represented by the same or different incumbents in
the 102nd and 103rd Congresses.

> 0. Neither of the candidates for the 103rd Congress
>   running in R's district was an incumbent in the
>   102nd Congress.
>
> 1. The incumbent who ran for re-election to the 103rd
>   Congress in the congressional district for the
>   sample segment in which R resided in 1992, is the
>   same incumbent who represented that segment in the
>   102nd Congress.
>
> 2. The incumbent who ran for re-election in R's
>   district in 1992 did not represent the sample
>   segment in which R lives in the 102nd Congress.
>
> 3. LA06: Two Republican incumbents ran in 1992,
>   neither of whom represented this segment in the
>   102nd Congress.
>
> 9. Indeterminate, NA [85 typerace]

==============================
VAR 937006    1992 CONGRESSIONAL DISTRICT NUMBER (2 DIGITS,  01- 98)

              This variable, combined with the ICPSR State Code (V7005),
              gives the congressional district for the sample location in
              which the R resided at the time of the 1993 Pilot Study.

                 00.  INAP, no Pilot Study

==============================
VAR 937007    CONGRESSIONAL DISTRICT CHANGE FLAG

                    0.  R has not moved from 1992 address
                    1.  R moved to a different Congressional District from
                         1992
                    5.  R moved within same Congressional District where
                         interviewed in 1992

                    8.  DK if moved to a different Congressional District

==============================
VAR 937008    FLAG TO SKIP G3b(A) and G9b(A)

              Questions G3b(A) and G9b(A) were slated to be dropped from
              the instrument because of time considerations.  In order to
              secure a descriptive notion of what R had in mind when
              answering G3(A) (V7374) or G9(B) (V7383), it was decided to
              ask the follow-up questions of a small number of people, who
              were randomly selected.  V3008 flags Rs who could be asked
```

```
                G3b(A) or G9b(A).

                    0.  Eligible to be asked
                    1.  Not eligible

                    1993.

                    0000.  INAP, no Pilot Study

==============================
VAR 937014   MONTH OF INTERVIEW

                      09.  September
                      10.  October
                      11.  November
```

                        00. INAP, no Pilot Study

==============================
VAR 937015   DAY OF INTERVIEW

                 1-31. ENTER DAY

                    00. INAP, no Pilot Study

==============================
VAR 937016   INTERVIEW LENGTH IN MINUTES

              The actual number of minutes (22-127) is coded, except:

                 999. NA

                 000. INAP, no Pilot Study

==============================
VAR 937017   TOTAL NUMBER OF CALLS TO OBTAIN INTERVIEW; LAST CALL
                        NUMBER

              Number of calls 1 - 32 is coded, except:

                 99. NA

                 00. INAP, no Pilot Study

==============================
VAR 937018   RESULT CODE

                 01. INTERVIEW, complete
                 05. INTERVIEW, partial

                 34. No contact after refusal

                 56. Final refusal, no persuasion attempt;
                      conversion attempt not warranted

                 62. Never able to contact
                 63. Permanent condition

                 75. Lost -- initial phone number not good, unable to
                      locate R

==============================
VAR 937019   REFUSAL CONVERSION

              This refers to interviews initially refused by the
              Respondent.

                 0. R was never assigned to Refusal Conversion
                 1. R refused initially and was assigned to refusal
                     conversion procedures

==============================
VAR 937020   CONTACT FLAG

                 0. This variable contains no data; all cases set to 0

==============================
VAR 937130  B2a.I'd like to get your feelings toward some of our political
                leaders and other people who have been in the news.  I'll
                read the name of a person and I'd like you to rate that
                person using something called the feeling thermometer.  You
                can choose any number between 0 and 100.  The higher the
                number, the warmer or more favorable you feel toward that
                person; the lower the number, the colder or less favorable.
                You would rate the person at the 50 degree mark if you feel
                neither warm nor cold toward them.  If we come to a person
                whose name you don't recognize, you don't need to rate that
                person.  Just tell me and we'll move on to the next one.
                PROBE FOR DK RESPONSE: "When you say 'don't know' do you
                mean that you don't know  who the person is or do you have
                something else in mind?"

        B2a.  Our first person is Bill Clinton?

==============================
VAR 937204  D1.(FORMS 1,2) We hear a lot of talk these days about liberals
               and conservatives. Think about a ruler where we are measuring
               political views that people might hold, from liberal to
               conservative.  On this ruler, which goes from one to seven,
               the number 1 means very liberal political views, and the
               number seven would be very conservative.  Just like a regular
               ruler, it has points in between at 2, 3, 4, 5, or 6.

               Where would you place yourself on this ruler or haven't you
```

```
                thought much about this?

                NOTE:  See V7217 for FORMS 3,4.

                     0.  HAVEN'T THOUGHT MUCH  - DO NOT PROBE
                     1.  VERY LIBERAL
                     .
                     7.  VERY CONSERVATIVE

                     8.  DK - DO NOT PROBE

===============================
VAR 937318   E33c. What should the government in Washington do to cut
                   the budget deficit?    (What else should it do?)

        Code up to 6 Mentions

        01.  Cut/limit/freeze spending - across the board or areas not
             specified.
        02.  Cut/eliminate wasteful, useless, unimportant, unnecessary
             spending; get rid of the fat; eliminate pork barrel
             spending- programs or areas of spending not specified;
             spending designed to benefit one congressman's district/one
             city or county - all mentions.
        03.  Get rid of fraud/corruption/graft/kickbacks in government
             and government spending - all mentions.
        04.  Reorganize spending priorities to cut/eliminate least
             important programs so more can be spent on important
             programs - all mentions (also code specific program
             mentions in 21-39, if given).
        05.  Run the government more efficiently/carefully; run the
             government (more) like a business/evaluate the need for all
             programs, departments and spending in a business-like way -
             all mentions.

        06.  Reduce the size of the federal government (except 07) - cut
             size of the bureaucracy; eliminate duplication of services
             or programs; pass responsibility for certain programs back
             to the states or local governments; support fewer
             programs/stop trying to be all things to all people.
        07.  Reduce the cost/size of the Congress (except 22) - have
             fewer committees/congressional staff.
        08.  Reduce/eliminate/simplify federal regulation, red tape,
             paperwork.

        19.  Other general spending mentions.

        21.  Cut/eliminate the pay, fringe benefits, retirement
             programs, perks of federal employees (except 22).
        22.  Cut/eliminate the pay, fringe benefits, retirement
             programs, perks of politicians, members of Congress,
             ex-members of Congress, ex-presidents.
        23.  Cut/eliminate spending for the military, defense, overseas
```

bases and deployment of troops.
24. Cut/eliminate spending for the space program.
25. Cut/eliminate spending for aid or support given foreign
     nations, the U.N.

26. Cut/eliminate spending for education; change the way money
     is spent for education.
27. Cut/eliminate spending for the arts.
28. Cut/eliminate spending for research programs, grants.
29. Cut/eliminate spending for domestic (special) interest
     subsidies (farm subsidies, rural electricity subsidies,
     merchant marine subsidies, etc.).
30. Cut/eliminate spending for entitlement programs - programs
     not specified.
31. Cut/eliminate spending for welfare, social programs
     (including medicaid, food stamps, ADC, etc.).
32. Cut/eliminate spending on illegal immigrants - all
     mentions.
33. Cut/eliminate spending for social security, medicare.

39. Other specific spending mentions.

41. Raise taxes - not specified which taxes or on whom.
42. Close tax loopholes - not specified which taxes or for
     whom.
43. Raise income taxes - across the board or not specified for
     whom.
44. Raise tariffs on imported goods.
45. Raise taxes on goods and services - gasoline, heating
     fuels,
     alcohol, tobacco, telephone service, luxury items, etc.
46. Raise taxes/close loopholes for corporations/businesses -
     all mentions.

47. Raise taxes/close loopholes for the "wealthy", the people
     who can afford to pay more - all mentions.

55. Cut taxes - all mentions.

59. Other revenue or tax mentions.

71. Limit the terms of members of Congress.
72. Reform financing of Congressional elections.
73. Control/eliminate lobbying, lobbyists.

81. Create more jobs for people/provide (more) incentive for
     business to create more jobs (so tax revenues will
     increase); provide retraining for unemployed workers (so
     they can become taxpayers again).

89. Other political system mentions.

96. Balance the budget - not further specified.
97. Other miscellaneous mentions.

98. DK
99. NA

00. INAP, no Pilot Study; no further mention

==============================
VAR 937374 G3(A).(FORMS 1,2) We're going to ask you now to think about how
              various government policies might affect you personally and
              also different groups in American society.

               First, thinking about you personally and your life as it is:
                if the government set up a national health insurance plan,
                would the consequences for you, in general, be very
                positive, somewhat positive, somewhat negative, very
                negative, or would there be no consequences for you
                personally?

                NOTE:   This documentation reflects the sequence in which
                        data were collected.  For users' convenience, data
                        from Q. G9(B) (FORMS 3,4) have been copied here.

                    1.   VERY POSITIVE
                    2.   SOMEWHAT POSITIVE
                    4.   SOMEWHAT NEGATIVE
                    5.   VERY NEGATIVE
                    7.   NO CONSEQUENCES

                    8.   DK
                    9.   NA

                    0.   INAP, no Pilot Study; 3-4 in 7003

==============================
VAR 937375    (See V927374)

              G3b(A). (FORMS 1,2) What kind of things do you have in mind?

         NOTE:   This question was asked only of a randomly selected
                 subset (1 out of 10) of those who said there would be
                 personal consequences for them.  The responses were
                  not coded.

==============================
VAR 937376  G3(B).(FORMS 3,4) We're going to ask you now to think about
              how various government policies might affect different groups
              in American society as well as you personally.

              First, thinking about the country as a whole:  if the
              government set up a national health insurance plan, would
              the consequences for the country, in general, be very
              positive, somewhat positive, somewhat negative, very
              negative, or would there be no consequences for the country
              as a whole?

                    1.   VERY POSITIVE
                    2.   SOMEWHAT POSITIVE
                    4.   SOMEWHAT NEGATIVE
                    5.   VERY NEGATIVE
                    7.   NO CONSEQUENCES

                    8.   DK
                    9.   NA

                    7.   NO CONSEQUENCES

                    8.   DK
                    9.   NA

                    0.   INAP, no Pilot Study; 1-2, 4 in 7003

===============================
VAR 937410   (See V927409)

          G21(2).   (FORM 4) First, thinking about the country as a
                      whole:

                    1.   VERY POSITIVE
                    2.   SOMEWHAT POSITIVE
                    4.   SOMEWHAT NEGATIVE
                    5.   VERY NEGATIVE
                    7.   NO CONSEQUENCES

```
                              8.  DK
                              9.  NA

                              0.  INAP, no Pilot Study; 1-3 in 7003
```

==============================
VAR 937411   (See V927409)

       G22.(FORMS 3,4) Now thinking about our first group, middle-class
                       Americans:

```
                              1.  VERY POSITIVE
                              2.  SOMEWHAT POSITIVE
                              4.  SOMEWHAT NEGATIVE
                              5.  VERY NEGATIVE
                              7.  NO CONSEQUENCES

                              8.  DK
                              9.  NA

                              0.  INAP, no Pilot Study; 1-2 in 7003
```

==============================
VAR 937412   (See V927409)

                G23. (FORMS 3,4) What about wealthy Americans?

```
                              1.  VERY POSITIVE
                              2.  SOMEWHAT POSITIVE[3]
                              4.  SOMEWHAT NEGATIVE
                              5.  VERY NEGATIVE
                              7.  NO CONSEQUENCES

                              8.  DK
                              9.  NA

                              0.  INAP, no Pilot Study; 1-2 in 7003
```

==============================
VAR 937413   (See V927409)

                G24. (FORMS 3,4) What about poor Americans?

```
                              1.  VERY POSITIVE
                              2.  SOMEWHAT POSITIVE
                              4.  SOMEWHAT NEGATIVE
                              5.  VERY NEGATIVE
                              7.  NO CONSEQUENCES

                              8.  DK
                              9.  NA

                              0.  INAP, no Pilot Study; 1-2 in 7003
```

==============================
VAR 937414   (See V927409)

                G25. (FORMS 3,4) What about whites?

                     1. VERY POSITIVE
                     2. SOMEWHAT POSITIVE
                     4. SOMEWHAT NEGATIVE
                     5. VERY NEGATIVE
                     7. NO CONSEQUENCES

                     8. DK
                     9. NA

                     0. INAP, no Pilot Study; 1-2 in 7003

==============================
VAR 937415   (See V927409)

               G26. (FORMS 3,4) What about Blacks?

                     1. VERY POSITIVE
                     2. SOMEWHAT POSITIVE[3]
                     4. SOMEWHAT NEGATIVE
                     5. VERY NEGATIVE
                     7. NO CONSEQUENCES

                     8. DK
                     9. NA

                     0. INAP, no Pilot Study; 1-2 in 7003

==============================
VAR 937416   (See V927409)

               G27(1).   (FORM 3) What about the country as a whole?

                     1. VERY POSITIVE
                     2. SOMEWHAT POSITIVE
                     4. SOMEWHAT NEGATIVE
                     5. VERY NEGATIVE
                     7. NO CONSEQUENCES

                     8. DK
                     9. NA

                     0. INAP, no Pilot Study; 1-2, 4 in 7003

             NOTE: Data from Q. G21(2) (FORM 4) have been copied here.

==============================
VAR 937417   (See V927409)

               G27(2).(FORM 4) Now, thinking now about you personally and
                               your life as it is:

                     1. VERY POSITIVE
                     2. SOMEWHAT POSITIVE
                     4. SOMEWHAT NEGATIVE
                     5. VERY NEGATIVE
                     7. NO CONSEQUENCES

                     8. DK
                     9. NA

```
                       0.  INAP, no Pilot Study; 1-3 in 7003

==============================
VAR 937418  G28.  (FORMS 3,4) What do you think the chances are these days
                  that you or anyone in your family won't get a job or
                  promotion while an equally or less qualified (black/white)
                  employee receives one instead?  Is this very likely,
                  somewhat likely, somewhat unlikely, or very unlikely?

                       1.  VERY LIKELY
                       2.  SOMEWHAT LIKELY
                       3.  SOMEWHAT UNLIKELY
                       4.  VERY UNLIKELY

                       8.  DK
                       9.  NA

                       0.  INAP, no Pilot Study; 1-2 in 7003

==============================
VAR 937419 G29. (FORMS 3,4) I would like you to tell me whether you agree
                or disagree with the following statement:  Affirmative action
                programs for blacks have reduced whites' chances for jobs
                and promotions.

                       1.  AGREE
                       5.  DISAGREE

                       8.  DK
                       9.  NA

                       0.  INAP, no Pilot Study; 1-2 in 7003

==============================
VAR 937420  G29a.(FORMS 3,4) Do you agree strongly or not strongly with
                 the statement that affirmative action programs for blacks
                 have reduced whites' chances for jobs and promotions?

                       1.  STRONGLY
                       2.  NOT STRONGLY

                       8.  DK
                       9.  NA

                       0.  INAP, no Pilot Study; 1-2 in 7003; 5, 8-9 in G29

==============================
VAR 937421  G29b. (FORMS 3,4) Do you disagree strongly or not strongly
                  with the statement that affirmative action programs for
                  blacks have reduced whites' chances for jobs and
                  promotions?

                       1.  STRONGLY
                       2.  NOT STRONGLY

                       8.  DK
                       9.  NA

                       0.  INAP, no Pilot Study; 1-2 in 7003; 1, 8-9 in G29
```

```
==============================
VAR 937422  G29x. (FORMS 3,4) Affirmative action programs for blacks have
               reduced whites' chances for jobs and promotions -- SUMMARY

                    1.   AGREE STRONGLY
                    2.   AGREE NOT STRONGLY
