SOCIAL TRUST QUESTION WITH PROBE

On the next question, we're going to do something a little different. I'm going to ask you to THINK ALOUD as you answer. By this I mean I want you to tell me EVERYTHING you are thinking from the time you first hear the question until you decide what your answer will be. For example, if you were to ask me how many windows I have in my house, I would say "Well, I have 5 rooms downstairs and in the living room there are 3 windows and in the kitchen there is 1." This is what I mean by thinking aloud. There are no right or wrong answers; I just want you to tell me everything that comes to mind as you answer the question. Okay?

Generally speaking, (would you say that most people can be trusted, or that you can't be too careful in dealing with people?) Please tell me what you are thinking...

@Q3AT (ENTER 1 FOR TEXT, D = DON'T KNOW, R = REFUSED)
