

Version 01 Codebook

CODEBOOK VARIABLE DOCUMENTATION
1984 CONTINUOUS MONITORING STUDY
(1984.S)

NES 1984 CONTINUOUS MONITORING
VARIABLE ENTRIES

This file should be opened in fixed font, 10 pitch or smaller.
Codebook introductory material and appendix material are in
separate files.

NOTE ON VARIABLE NAMING:

The variable name references used in NES Study codebooks do not include the "V" prefix found in all variable names used within the released SAS and SPSS data definition files (.sas and .sps files).

For example, "VAR 920001" and "VAR VERSION" in Study codebooks refer to V920001 and VVERSION in the study data definition files.

VARIABLE 'NUMBERING':

'Numbered' variables in NES timeseries datasets and in Pilot datasets (except the 1998 Pilot) comply with the following format:

2-digit year prefix + 4 digits + [opt] 1-char suffix.

Examples: 1978 Post variable V780002; 1983 Pilot variable V832101.
Note that for datasets including data from multiple studies, the 2-digit year prefix corresponds to the appropriate study year to which the variable is associated; for example, the 1983 Pilot dataset also includes 1982 timeseries variables, for which the 2-digit prefix is 82.

Non-time-series studies other than Pilots use 2-character mnemonic prefixes, for example variable VPS0048 in the 1988-1990-1992 Pooled Senate Study dataset.

SPECIAL NOTE ON COLUMN LOCATIONS:

Some numeric variables use coding schemes that allow for code values having a varying number of digits. In such instances, the number of columns corresponding to the variable in the data file [.dat file] and in the column specifications will be the width of the maximum value occurring in the actual data, rather than the maximum width allowable by the coding scheme. For example, if codes 01-12 are allowed for a numeric variable but all values in the data are less than 10, then the number of columns corresponding to the variable within the ASCII data file will be 1.

```

=====
VAR VERSION    NAME-NES VERSION NUMBER
                COLUMNS 1      - 2
                NUMERIC

                NES VERSION NUMBER
                .....

```

```

=====
VAR DSETNO     NAME-NES DATASET NUMBER
                COLUMNS 3      - 8
                CHARACTER
                NO MISSING DATA CODES

                NES DATASET NUMBER
                .....

```

This is dataset 1984.S

```

=====
VAR CM0001     CASE ID (5 DIGIT NUMBER IN UPPER-LEFT CORNER)

                BUILT - NOT DISPLAYED

                Not entered by coders. There are skips in the numbering
                sequence.

                00001-03536

```

```

=====
VAR CM0002     PRIMARY AND CAUCUS-DATES

                This variable defines the TIME and TYPE of each state
                primary or caucus

                1. Early Primary States: Occurring March 13th or
                   earlier-- NH, RI, MA, AL, GA, FL

                2. Late Primary States: Occuring on June 5th--
                   CA, NJ, NM, SD, WVA

                3. Early Caucus States: Occurring on March 17th
                   or earlier-- IN, NV, OK, WA, DE, ND, AK, KY,
                   MI, MD, SC

                4. All other states not mentioned above

```

```

=====
VAR CM0003     TIME ZONE CODE

                1. Eastern
                2. Central
                3. Mountain
                4. Pacific

```

```

=====
VAR CM0004     DAYLIGHT SAVINGS INDICATOR

```

Does state observe daylight savings time

- 1. Yes
- 5. No

=====

VAR CM0005 SELECTION TABLE

Code represents the type of selection table used

=====

VAR CM0006 FINAL CALL NUMBER

Total number of calls made to household

- 1. One
- 2. Two
- .
- .
- .
- 65. Sixty-five
- 99. NA

=====

VAR CM0007 RESULT DATE

Day, month and year in which interview was COMPLETED
 This is an alphabetic variable
 xx-yy-84 xx = actual day
 yy = actual month

=====

VAR CM0008 RESULT DATE

Month in which the interview was completed

- 01. January
- 02. February
- 03. March
- 04. April
- 05. May
- 06. June
- 07. July
- 08. August
- 09. September
- 10. October
- 11. November
- 12. December
- 99. NA

=====

VAR CM0009 RESULT DAY

Day of the month in which the interview was completed

- 1. First

nescontm.txt

- .
- .
- .
- .
- 31. Thirty first

99 NA

=====
VAR CM0010 NUMBER OF DAYS ELAPSED IN INTERVIEW PERIOD

NOTE: The study design called for a Sample Week beginning on a Wednesday, ending the following Tuesday at midnight and extended by a 10 day "grace" period so that the total interview period ended at midnight the following Friday. The study staff allowed interviews to be taken on the next Saturday and Sunday, if making an appointment on those days was the only way an R could give (or complete) an interview.

Six interviews were taken on days later than the 19th. Four interviews were taken on the 20th day, and one each on the

26th and 28th days. We have left these interviews in the datafile, since for analytic purposes where Sample Week is not a primiry concern, their use is appropriate.

- 01. First day
- .
- .
- .
- .
- 19.
- 20. Twentieth day
- 26. Twenty-sixth day
- 28. Twenty-eighth day

99. NA

=====
VAR CM0011 RESULT CODE-- FINAL DISPOSITION

- 01. Complete interview
- 05. Partial interview

=====
VAR CM0012 INTERVIEWER OF RECORD

0001-9999 ID Number for each interviewer

=====
VAR CM0013 REFUSAL CONVERSION INDICATOR

A "Refusal Conversion" refers to a completed interview which was initially refused by a respondent.

- 1. Yes, initial refusal converted
- 5. No initial refusal

VAR CM0014 NUMBER OF PERSONS

Total number of persons in the household

- 01. one
- 02. two
- 03. three
- .
- .
- .
- 99. NA

=====

VAR CM0015 HOUSEHOLD COMPOSITION

ADULT (18 years and older) composition

This variable included only those household members who were 18 or older whether or not they were eligible to participate in the study on the basis of nationality.

- 10. One adult male head
- 11. One adult male head plus one other non-relative
- 12. One adult male head plus two or more other non-relatives
- 20. One adult female head
- 21. One adult female head plus one other non-relative
- 22. One adult female head plus two or more other non-relatives

- 30. One married couple
- 40. One married couple plus one other relative
- 50. One married couple plus two or more other relatives
- 51. One married couple plus one other non-relative
- 52. One married couple plus two or more other non-relatives

- 60. An unmarried* male head plus one other relative
- 70. An unmarried male head plus two or more other relatives
- 80. An unmarried female head plus one other relative
- 90. An unmarried female head plus two or more other relatives

- 99. NA

*Unmarried includes divorced, separated, or widowed.

=====

VAR CM0016 NUMBER OF ELIGIBLE ADULTS

Total number of eligible adults, American citizens 18 years or older by Election Day

01-98 Code actual number

=====

VAR CM0017 NUMBER OF CHILDREN < = 5

 Total number of children 5 years old or younger

- 0. None
- 1. one
- .
- .
- .
- 8. eight
- 9. NA

=====

VAR CM0018 NUMBER OF CHILDREN 6-9

 Total number of children aged 6-9

- 0. None
- 1. one
- .
- .
- .
- 8. eight
- 9. NA

=====

VAR CM0019 NUMBER OF CHILDREN 10-13

 Total number of children aged 10-13

- 0. None
- 1. one
- .
- .
- .
- 8. eight
- 9. NA

=====

VAR CM0020 NUMBER OF CHILDREN 14-17

 Total number of children aged 14-17

- 0. None
- 1. one
- .
- .
- .
- 8. eight
- 9. NA

=====

VAR CM0021 ZIP CODE

First three digits of 5 digits coded.

999. NA

=====

VAR CM0022 BREAKOFF DATE #1

Day, month and year in which first breakoff of interview occurred

(A "breakoff" occurs when a Respondent doesn't answer the whole questionnaire in one session)

This is an alphabetic variable

xx-yy-84 xx = actual day
 yy = actual month

=====

VAR CM0023 BREAKOFF MONTH #1

Month in which first breakoff of interview occurred

- 01. January
- 02. February
- 03.
- .
- .
- .
- .
- 11. November

99. NA

00. INAP, interview completed in one session

=====

VAR CM0024 BREAKOFF DAY #1

Actual day of the month where first breakoff occurred

- 01. first
- 02.
- .
- .
- .
- .
- 31

99. INAP, interview completed in one session

=====

VAR CM0025 BREAKOFF Q#1

This is an alphabetic variable.

It codes the actual question number where first breakoff

occurred.

=====
VAR CM0026 BREAKOFF DATE #2

Day, month and year in which second breakoff occurred

This is an alphabetic variable
xx-yy-84 xx = actual day
 yy = actual month

=====
VAR CM0027 BREAKOFF MONTH #2

Actual month in which second breakoff of interview occurred

- 01. January
- 02. February
- .
- .
- .
- 09. November
- 99. NA
- 00. INAP, No second breakoff

=====
VAR CM0028 BREAKOFF DAY #2

Actual day of the month when second breakoff of interview occurred

- 01. First
- 02. Second
- .
- .
- .
- 31.
- 99. NA
- 00. INAP, no second breakoff

=====
VAR CM0029 BREAKOFF Q #2

This is an alphabetic variable.
It codes the actual question number where second breakoff occurred.

=====
VAR CM0030 DAYS ALIVE

This variable counts the number of days between when a coversheet was issued and when the interview was completed. This variable was built from the control file. Since only

nescontm.txt

one disposition (interview, non-interview) was taken from each cluster in a sample week, those cases in the control file where the previous case has the same cluster ID and sample week were REDRAWN coversheets. Days Alive, therefore, is equal to the "Days of Interviewing" Period for all sheets that WERE NOT REDRAWN. For those coversheets that WERE REDRAWN, Days Alive records the difference between "Days of Interviewing" Period for the record and the previous record.

882-885, 908, 909, 920, 921; 997 in 223, 226, 231,
233-235, 311-316, 1001-1007.

=====

VAR CM0118 A1. We are interested in how people are getting along
financially these days. Would you say that you (and
your family living with you) are BETTER or WORSE off
financially than you were a year ago?

1. BETTER
3. SAME
5. WORSE

8. DK
9. NA

=====

VAR CM0119 (See V118)

Ala. Is that MUCH better or SOMEWHAT better?
Alb. Is that MUCH worse or SOMEWHAT worse?

1. MUCH BETTER
2. SOMEWHAT BETTER
3. SAME; coded 3 in 118
4. SOMEWHAT WORSE
5. MUCH WORSE

nescontm.txt

- 8. DK
- 9. NA

- 0. INAP, 8-9 in 118

=====
VAR CM0120 A2. This past year, have you (and your family) had to watch
your budget more closely than the year before?

- 1. YES
- 5. NO

- 8. DK
- 9. NA

=====
VAR CM0121 (See V120)

A2a. Is that MUCH more closely or A LITTLE more closely?

- 1. YES, MUCH MORE CLOSELY
- 2. YFS, A LITTLE MORE CLOSELY
- 5. NO; coded 5 in 120

- 8. DK
- 9. NA

- 0. INAP, 8-9 in 120

=====
VAR CM0122 A3. Do you think that over the last year, (you/your
family's) income has gone up more than the cost of
living, has it fallen behind, or has it stayed about
even with the cost of living?

- 1. GONE UP MORE
- 3. STAYED ABOUT EVEN
- 5. FALLEN BEHIND

- 8. DK
- 9. NA

=====
VAR CM0123 (See V122)

A3a. Has it gone up A LOT more or A LITTLE more?
A3b. Has it fallen behind A LOT or A LITTLE?

- 1. A LOT MORE up
- 2. A LITTLE MORE up
- 3. STAYED ABOUT EVEN: coded 3 in 122
- 4. FALLEN A LITTLE behind
- 5. FALLEN A LOT behind

- 8. DK
- 9. NA

- 0. INAP, 8-9 in 122

=====

VAR CM0124 A4. Sometimes people think about other groups of people in society when they think about their own economic well-being, people who are being helped or hurt by economic conditions.

Code 3 Mentions [Mention 1]

When it comes to economic matters, what groups of people do YOU feel close to?

(IF R DOESN'T KNOW WHAT WE MEAN BY "GROUPS": Some people have mentioned farmers, the elderly, teachers, blacks, and union members.)

- 100. Women
- 110. Disadvantaged women; unmarried mothers, single women caring for parents
- 120. Women on welfare;
- 190. Other references to women

- 200. Blacks
- 210. Middle class blacks
- 220. Working class blacks

- 290. Other references to Blacks

- 300. Elderly (Senior Citizens)
- 310. Retired
- 320. People on fixed income

- 390. Other references to the elderly
- 400. The Poor
- 401. Employment; number of people working who have jobs
- 405. Lower class
- 410. Working class people; blue collar workers
- 411. Factory workers
- 415. Low(er) income
- 420. People on welfare
- 430. Labor unionists
- 440. Manual workers in dangerous occupations, e.g. policemen, firemen, miners, seaman
- 480. Unemployed
- 485. People hurt by economic conditions, people who are struggling
- 490. Other references to the poor, working class people
- 500. Middle class (including upper middle and lower middle)
- 502. Middle class whites
- 504. Middle class white collar
- 505. Middle income
- 510. The Silent Majority
- 515. Average people, Average American
- 590. Other references to middle class

- 600. The Rich
- 605. People who are better off; people ahead of the economy
- 610. Speculators, capitalists, entrepreneurs
- 620. Professionals, e.g., doctors, nurses, lawyers
- 621. Young professionals

nescontm.txt

- 625. White collar workers

VAR CM0219 C2. Now let's talk about your feelings toward (versions 1-6:
the candidates) (version 7 and above: political figures)
you know something about. I'll read the name of a person
and I will ask you to rate that person on a thermometer
that runs from 0 degrees to 100 degrees. Ratings between

nescontm.txt

50 degrees and 100 degrees mean that you feel favorable and warm toward that person. Ratings between 0 degrees and 50 degrees mean that you don't feel too favorable and are cool toward that person. You may use any number from

0 to 100 to tell me how favorable or unfavorable your feelings are for each person.

If you recognize the name, but don't feel particularly warm or cold toward the person, you would rate the person at the 50 degree mark.

Our first person is Ronald Reagan. How would you rate him using this thermometer?

VAR CM0311 E1. Now let's talk about who is likely to win the DEMOCRATIC
NOMINATION FOR PRESIDENT. We will be using a scale which
runs from 0 to 100, where 0 represents NO chance for the
nomination, 50 represents AN EVEN CHANCE, and 100
represents CERTAIN victory.

E1a. Using this 0 in 100 scale, what do you think WALTER
MONDALE'S chances are of winning the nomination?

Code actual NUMBER (000-100)

997. R doesn't recognize name - coded 5 or 9 in 204
also: INAP, INTERVIEW VERSIONS 7 AND ABOVE

998. DK

999. NA

=====
VAR CM0312 E1b. (Using this 0 to 100 scale,) what do you think JOHN
GLENN'S chances are of winning the nomination?

Use same code as 311 EXCEPT:

997. R doesn't recognize name - coded 5 or 9 in 202
INAP, INTERVIEW VERSION 4 AND ABOVE

=====
VAR CM0313 E1c. (Using this 0 to 100 scale,) what do you think ALAN
CRANSTON'S chances are of winning the nomination?

Use same code as 311 EXCEPT:

997. R doesn't recognize name - coded 5 or 9 in 205
INAP, INTERVIEW VERSION 4 AND ABOVE

=====
VAR CM0314 E1d. (Using this 0 to 100 scale,) what do you think JESSE
JACKSON'S chances are of winning the nomination?

Use same code as 311 EXCEPT:

VAR CM1001      N1. Now we'd like you to tell us about some of the candidates'
                 chances of winning the PRESIDENCY in 1984.
                 As before, we will use a scale that goes from 0 to 100
                 where 0 represents NO chance of winning the Presidency
                 50 represents an even chance, and 100 represents certain
                 victory.
                 First, what if Ronald Reagan is nominated by the
                 Republicans? What chance does he have of winning the
                 1984 Presidential election?

                 N1. As you know, Ronald Reagan has been nominated by the
                 Republican party. What chance do you think he has of
                 winning the 1984 Presidential election?
                 We will use a scale that goes from 0 to 100 where 0
                 represents NO chance of winning the Presidency, 50
                 represents an even chance, and 100 represents certain
                 victory.

                 Code actual NUMBER (000-100)

                 997. R doesn't recognize name - coded 5, 9 in 201, INAP,
                 INTERVIEW VERSION 12 AND ABOVE
