Half of the white respondents in the 1970 American Election Study were administered Form 1 and the other half were administered Form 2. The text of Form 2 is identical to Form 1 except that the white respondents were not asked the following questions: 3-8A, 29-31, 38-41, and 73. (Form 2 white respondents were asked the questions indicated in this questionnaire as having been skipped for Form 1 white respondents.) Additionally, in Form 2 the order of the list of groups and/or people in questions 74 and 75 are inverted from the order in Form 1.

There is much talk about "hawks" and "doves" in connection with Vietnam, and considerable disagreement as to what action the United States should take in Vietnam. Some people think we should do everything necessary to win a complete military victory, no matter what results. Some people think we should withdraw completely from Vietnam right now, no matter what results. And, of course, other people have opinions somewhere between these two extreme positions. Suppose the people who support an immediate withdrawal are at one end of this scale (SHOW CARD #3 TO R) at point number 1. There are many possible ways for people to show their disapproval or disagreement with governmental policies and actions. I am going to describe three such ways. We would like to know which ones you approve of as ways of showing dissatisfaction with the government, and which ones you disapprove of.

29. How about taking part in protest meetings or marches that are permitted by the local authorities? Would you approve of taking part, disapprove, or would it depend on the circumstances?

30. How about refusing to obey a law which one thinks is unjust, if the person feels so strongly about it that he is willing to go to jail rather than obey the law? Would you approve of a person doing that, disapprove, or would it depend on the circumstances?

31. Suppose all other methods have failed and the person decides to try to stop the government from going about its usual activities with sit-ins, mass meetings, demonstrations, and things like that? Would you approve of that, disapprove, or would it depend on the circumstances?

32. Now I'd like to read some of the kinds of things people tell us when we interview them and ask you whether you agree or disagree with them. I'll read them one at a time and you just tell me whether you agree or disagree.

32a. People like me don't have any say about what the government does. /1. Agree/ /5. Disagree/

32b. Voting is the only way that people like me can have any say about how the government runs things. /1. Agree/ /5. Disagree/

32c. Sometimes politics and government seem so complicated that a person like me can't really understand what's going on. /1. Agree/ /5. Disagree/

32d. I don't think public officials care much what people like me think. /1. Agree/ /5. Disagree/

32e. Generally speaking, those we elect to Congress in Washington lose touch with the people pretty quickly. /1. Agree/ /5. Disagree/

32f. Parties are only interested in people's votes but not in their opinions. /1. Agree/ /5. Disagree/

People have different ideas about the government in Washington. These ideas don't refer to Democrats or Republicans in particular but just to the government in general. We want to see how you feel about these ideas -- for example:

33. Do you think that people in the government waste a lot of the money we pay in taxes, waste some of it, or don't waste very much of it? /5. A lot/ /3. Some/ /1. Not much/

34. How much of the time do you think you can trust the government in Washington to do what is right -- just about always, most of the time, or only some of the time? /1. Always/ /3. Most of the time/ /5. Some of the time/

35. Would you say the government is pretty much run by a few big interests looking out for themselves or that it is run for the benefit of all the people? /5. Few big interests/ /1. For benefit of all/
36. Do you feel that almost all of the people running the government are smart people who usually know what they are doing, or do you think that quite a few of them don't seem to know what they are doing?

/1. Know what they're doing/  /5. Don't know what they're doing/  

37. Do you think that quite a few of the people running the government are a little crooked, not very many are, or do you think hardly any of them are crooked at all?

/5. Quite a lot/  /3. Not many/  /1. Hardly any/  

38. Over the years, how much attention do you feel the government pays to what the people think when it decides what to do:

39. How much do you feel that political parties help to make the government pay attention to what the people think:

40. And how much do you feel that having elections makes the government pay attention to what the people think:

41. How much attention do you think most Congressmen pay to the people who elect them when they decide what to do in Congress:

Now here is something different. We have a few questions on other things besides politics.

42. Do you think it's better to plan your life a good way ahead, or would you say life is too much a matter of luck to plan ahead very far?

/1. Plan ahead/  /5. Too much luck to plan/  /8. Don't know/
43. When you do make plans ahead, do you usually get to carry out things the way you expected, or do things usually come up to make you change your plans?
   1. Things work out as expected  5. Have to change plans  8. Don't know

44. Have you usually felt pretty sure your life would work out the way you want it to, or have there been times when you haven't been sure about it?
   1. Pretty sure  5. Haven't been sure  8. Don't know

45. Some people feel they can run their lives pretty much the way they want to; others feel the problems of life are sometimes too big for them. Which one are you most like?

46. In general, how satisfying do you find the way you're spending your life these days? Would you call it completely satisfying, pretty satisfying or not very satisfying?

47. Now I'd like to talk with you a bit about the elections which took place this fall. As you know, representatives to the Congress in Washington were chosen in this election from congressional districts all around the country. How much would you say that you personally cared about the way the elections to Congress came out: very much, pretty much, not very much, or not at all?

_____ Professor at a large university
_____ President of the United States
_____ Well known athlete
_____ President of a large corporation like General Motors
_____ Governor of your state
Several political leaders have already been mentioned as possible candidates for President in 1972. We would like to get your feelings toward some of these people.

I have here a card (INTERVIEWER HANDS OVER CARD #1) on which there is something that looks like a thermometer. We call it a "feeling thermometer" because it measures your feelings toward these people.

Here's how it works. If you don't feel particularly warm or cold toward a person, then you should place him in the middle of the thermometer, at the 50 degree mark.

If you have a warm feeling toward a person, or feel favorably toward him, you would give him a score somewhere between 50° and 100°, depending on how warm your feeling is toward that person.

On the other hand, if you don't feel very favorably toward a person -- that is, if you don't care too much for him -- then you would place him somewhere between 0° and 50°.

Of course, if you don't know too much about a person, just tell me and we'll go on to the next name.

Our first person is George Wallace. Where would you put him on the thermometer?

INTERVIEWER: TAKE SOME TIME TO EXPLAIN HOW THE THERMOMETER WORKS, SHOWING THE WAY IN WHICH THE DEGREE LABELS CAN HELP HIM TO LOCATE AN INDIVIDUAL, SUCH AS GEORGE WALLACE.

(1) (GO TO Q.5) (GO TO Q.5)

4a. Why is that?

5. Now, about something different—we are interested in how people are getting along financially these days. Would you say that you and your family are better off or worse off financially than you were a year ago?

11. As you may know, Congress passed a bill that says that Negroes should have the right to go to any hotel or restaurant they can afford, just like anybody else. Some people feel that this is something the government in Washington should support. Others feel that the government should stay out of this matter. Have you been interested enough in this to favor one side over another?

/1. Yes/ /5. No/ → (GO TO Q.12)

11a. Should the government support the right of Negroes:

And now I would like to talk to you about some problems which are important in America today.

21. There is much discussion about the best way to deal with the problem of urban unrest and rioting. Some say it is more important to use all available force to maintain law and order—no matter what results. Others say it is more important to correct the problems of poverty and unemployment that give rise to the disturbances. And, of course, other people have opinions in between. Suppose the people who stress doing more about the problems of poverty and unemployment are at one end of this scale—at point number 1 (SHOW CARD O2 TO R). 22. There is much talk about "hawks" and "doves" in connection with Vietnam, and considerable disagreement as to what action the United States should take in Vietnam. Some people think we should do everything necessary to win a complete military victory, no matter what results. INTERVIEWER: CHECK ONE --

1. IF R IS BLACK CONTINUE
2. IF R IS NOT BLACK, GO TO Q.32, PAGE 17.
There are many possible ways for people to show their disapproval or disagreement with governmental policies and actions. I am going to describe three such ways. We would like to know which ones you approve of as ways of showing dissatisfaction with the government, and which ones you disapprove of.

29. How about taking part in protest meetings or marches that are permitted by the local authorities? Would you approve of taking part, disapprove, or would it depend on the circumstances?

30. How about refusing to obey a law which one thinks is unjust, if the person feels so strongly about it that he is willing to go to jail rather than obey the law? Would you approve of a person doing that, disapprove, or would it depend on the circumstances?

31. Suppose all other methods have failed and the person decides to try to stop the government from going about its usual activities with sit-ins, mass meetings, demonstrations, and things like that? Would you approve of that, disapprove, or would it depend on the circumstances?

32. Now I'd like to read some of the kinds of things people tell us when we interview them and ask you whether you agree or disagree with them. I'll read them one at a time and you just tell me whether you agree or disagree.

32a. People like me don't have any say about what the government does.

32b. Voting is the only way that people like me can have any say about how the government runs things.

32c. Sometimes politics and government seem so complicated that a person like me can't really understand what's going on.

32d. I don't think public officials care much what people like me think.

32e. Generally speaking, those we elect to Congress in Washington lose touch with the people pretty quickly.

32f. Parties are only interested in people's votes but not in their opinions.

People have different ideas about the government in Washington. These ideas don't refer to Democrats or Republicans in particular but just to the government in general. We want to see how you feel about these ideas -- for example:

33. Do you think that people in the government waste a lot of the money we pay in taxes, waste some of it, or don't waste very much of it?

34. How much of the time do you think you can trust the government in Washington to do what is right -- just about always, most of the time, or only some of the time?

35. Would you say the government is pretty much run by a few big interests looking out for themselves or that it is run for the benefit of all the people?
36. Do you feel that almost all of the people running the government are smart people who usually know what they are doing, or do you think that quite a few of them don't seem to know what they are doing?

/1. Know what they're doing/ /5. Don't know what they're doing/

37. Do you think that quite a few of the people running the government are a little crooked, not very many are, or do you think hardly any of them are crooked at all?

/5. Quite a lot/ /3. Not many/ /1. Hardly any/

41. How much attention do you think most Congressmen pay to the people who elect them when they decide what to do in Congress:

Now here is something different. We have a few questions on other things besides politics.

Several political leaders have already been mentioned as possible candidates for President in 1972. We would like to get your feelings toward some of these people.

I have here a card (INTERVIEWER HANDS OVER CARD #11) on which there is something that looks like a thermometer. We call it a "feeling thermometer" because it measures your feelings towards these people.

Here's how it works. If you don't feel particularly warm or cold toward a person, then you should place him in the middle of the thermometer, at the 50 degree mark.

If you have a warm feeling toward a person, or feel favorably toward him, you would give him a score somewhere between 50° and 100°, depending on how warm your feeling is toward that person.

On the other hand, if you don't feel very favorably toward a person -- that is, if you don't care too much for him -- then you would place him somewhere between 0° and 50°.

Of course, if you don't know too much about a person, just tell me and we'll go on to the next name.

Our first person is Eugene McCarthy. Where would you put him on the thermometer?
