Now let's talk about your feelings toward the political figures that you recognize.

I'll read the name of a person and I'd like you to rate that person using something called the feeling thermometer. You choose any number between 0 and 100. The higher the number, the warmer or more favorable you feel toward that person; the lower the number, the colder or less favorable. You would rate the person at the 50 degree mark if you feel neither warm nor cold toward them.

Our first person is George Bush. How would you rate him using this thermometer?

probe - when you say "I don't know" do you mean that you don't know who the person is, or do you have something else in mind?
