
ANES News: October 2018

ANES <anes@electionstudies.org>

Fri, Oct 19, 2018 at 2:00 PM

Dear American National Election Studies (ANES) User Community,

We have a number of updates for you:

1. A new dataset, the “2016 Time Series Address-Level Supplemental Data on Voters,” is now available for download from the [Data Center](#) on the ANES website. These data provide voter turnout information for individuals living at the addresses that were sampled for the [2016 Time Series Study](#), including non-respondents. The dataset includes turnout for the general elections in 2012, 2014, and 2016, as well as information about the quality of the address match.
2. We have made significant improvements to the [Question Search tool](#) on the ANES website under Resources. The tool now contains questions from 1948 through 2016, allows for Boolean searches, produces an interactive visualization of the results, and the results can be sorted by column. More improvements are planned; we appreciate any feedback you can offer by email to: anes@electionstudies.org
3. Are you on Twitter? Please follow us! Our Twitter handle is: [@electionstudies](#)
