ANES 2024 Pilot Study
Questionnaire Specifications
Version 20240415

Fielding & Sample specifications
- Dates: data collection should begin as soon as possible.
- Eligibility: respondents should meet two eligibility criteria:
  - U.S. citizens
  - Age 18 or older
- \( n = 1500 \) completions

Programming & Design specifications
- Paging design: display one question per page unless otherwise specified.
- Nonresponse prompting: Unless otherwise noted for a specific item, for every item to which the R fails to respond, please re-display the item once with the following text above it:
  - Nonresponse prompt records: record whether or not the nonresponse prompt is shown in a “skp” variable.
- Types: items are “single-punch” radio button responses unless otherwise specified.
- No backup option: no “back” button on the page.
- No progress bar: no progress bar is displayed on the page.
- Missing data and nonresponse codes: Please assign a numeric code to all variables rather than using system missing. Please use the following nonresponse codes:
  - -1: inapplicable, legitimate skip. Use this code when the specified flow through the questionnaire makes a question inapplicable. For example, a “how strongly do you favor that” follow-up question would be coded -1 when the preceding answer was “oppose.”
  - -4: other/error: data are missing due to a technical problem.
  - -7: no answer; the question was displayed to the respondent, but the R clicked “Next” without answering the question.
- Variable names: Names for item variables are in brackets in lower case to the left of each item, such as “[follow]” for the first item in the survey.
- Codes for response options are indicated next to the response options. These are not displayed to the respondent, unless otherwise specified.
- Randomization: record all random assignments. Randomize independently, unless otherwise specified.
- Timing: Record all item timings in seconds
- Administrative variables to deliver merged with the data:
  - number of previous panel surveys completed
  - date of panel enrollment
- date and time of interview completion
- duration of interview in seconds or minutes (or start and end times)
- All available profile items deliver merged with the data.

SURVEY INTRODUCTION

We would like to include you as a participant in a research study. If you agree to be in this study, we will ask for your views on certain social and political issues. Participation is voluntary, and you may skip any questions you do not want to answer. The survey usually takes about 25 minutes to finish. Your YouGov account will be credited with 1,000 points for completing the survey.

This survey is sponsored by the University of Michigan. If you have any questions or comments about the survey, you may contact Lauren Guggenheim by email at anes-project@umich.edu.

If you have questions about your rights as a research participant, or wish to obtain information, ask questions or discuss any concerns about this study with someone other than the researcher(s), please contact the following: University of Michigan Health Sciences and Behavioral Sciences Institutional Review Board (IRB-HSBS), 2800 Plymouth Road Building 520, Room 1169, Ann Arbor, MI 48109-2800, Telephone: 734-936-0933 or toll free (866) 936-0933 Fax: 734-936-1852 E-mail: irbhsbs@umich.edu

We would like to get your feelings toward some of our political leaders and other people who are in the news these days. We will show the name of a person and we’d like you to rate that person using something we call the feeling thermometer.

Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the person. Ratings between 0 degrees and 50 degrees mean that you don’t feel favorable toward the person and that you don’t care too much for that person. You would rate the person at the 50 degree mark if you don’t feel particularly warm or cold toward the person.

If we come to a person whose name you don’t recognize, you don’t need to rate that person. Just click ‘Next’ and we’ll move on to the next one.
